RE: Application for Unorthodox Location  
Nassau Resources, Inc.  
Carracas Unit 28 B #5  
1850' FNL - 790' FWL  
Sec. 28, Township 32 North, Range 4 West, NMPM  
Rio Arriba County, New Mexico

Gentlemen:

Nassau Resources, Inc., hereby requests administrative approval of an unorthodox location for the captioned well based upon topographic conditions and Carson National Forest requirements.

This location is unorthodox due to the rough terrain and Carson National Forest guidelines for development and off-road vehicle restriction. Enclosed is a letter from Phillip Settles regarding Carson's guidelines, as well as a topographic map.

This well is in Nassau's Carracas Unit. All offsetting leases, as shown on the attached lease plat, are owned by Kindermac Partners, an operating affiliate with Nassau Resources, Inc. Therefore, we request that the 20 day waiting period be waived, and that this application be approved as soon as possible.

Also attached are a production map of the area and the C-102 Plat.

Please contact us if anything further is required to complete this application.

Respectfully submitted,

*Fran Perrin*

Operator Nassau Resources, Inc.			Lease Carracas Unit 28 B		Well No. 5
Unit Letter E	Section 28	Township 32 North	Range 4 West	County Rio Arriba	
Actual Footage Location of Well 1850 feet from the North line and 790 feet from the West line					
Ground Level Elev. 7320	Producing Formation Fruitland		Pool Basin Fruitland Coal	Dedicated Acreage 320.0 Acres	

1. Outline the acreage dedicated to the subject well by colored pencil or hatchure marks on the plat below.
2. If more than one lease is dedicated to the well, outline each and identify the ownership thereof (both as to working interest and royalty).
3. If more than one lease of different ownership is dedicated to the well, have the interests of all owners been consolidated by communitization, unitization, force-pooling, etc?

☒ Yes ☐ No If answer is "yes," type of consolidation Unitization - Carracas Unit

If answer is "no," list the owners and tract descriptions which have actually been consolidated. (Use reverse side of this form if necessary.)

No allowable will be assigned to the well until all interests have been consolidated (by communitization, unitization, forced-pooling, or otherwise) or until a non-standard unit, eliminating such interests, has been approved by the Division.

Dear James:

It was brought to my attention by Mike Atchison that you will be needing to apply for some unorthodox locations for some of the wells in the Carracas Unit. The current location in need of unorthodox approval is the well location just northwest of the Carracas Administrative site, Section 18, T. 32 N., R. 4 W. The need for moving the location to the new site is based upon wildlife habitat protection and in keeping within the guidelines set forth in the Carson Forest Plan. The Plan, as you know, has a major emphasis in wildlife and wildlife habitat. Also key to this request for moving the location is the current Off-Road-Vehicle restriction policy in place over the entire Carracas Unit. This restriction is in place to limit off-road-vehicle travel within a key wildlife management area so that security area will not be lost by unnecessary road construction.

Whenever possible, locations will be required to be placed along open access roads. Further unorthodox locations can be expected within the Carracas Unit to keep in line with the management direction set forth for this area.

Because of this management direction and the probability of future relocations, I would hope the approval of these unorthodox locations can become routine. If not, please don't hesitate to contact me for further help or if needed to appear in person before the approving officer. If you have any questions, please give me a call.

Sincerely,

*Philip R. Settles*
