Attention: Sheryl J. Carruth

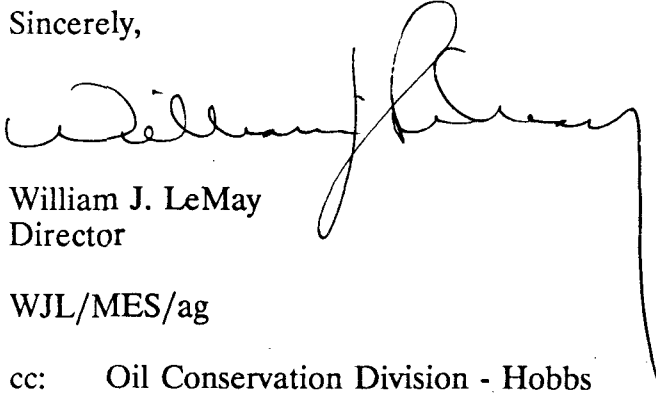

Administrative Order NSL-2746

Dear Ms. Carruth:

Reference is made to your application of December 15, 1989 for a non-standard oil well location to permit the completion of an efficient production/injection pattern within an active secondary recovery project for your Langlie Mattix Queen Unit Well No. 43 to be located 1300 feet from the South and East lines (Unit P) of Section 15, Township 25 South, Range 37 East, NMPM, Langlie Mattix Seven Rivers Queen Pool, (Mobil) Langlie Mattix Unit Waterflood Project Area, Lea County, New Mexico. Said well to be dedicated to the existing standard 40-acre oil spacing and proration unit comprising the SE/4 SE/4 of said Section 15, which is presently dedicated to the Langlie Mattix Queen Unit Well No. 43 located at a previously approved unorthodox oil well location (Division Order No. R-4153) 900 feet from the South line and 215 feet from the East line of said Section 15.

By the authority granted me under the provisions of General Rule 104 F(I) and Division Order No. R-3823, dated September 4, 1969, the above-described unorthodox oil well location is hereby approved.

Sincerely,

William J. LeMay
Director
