Mr. Mike Stogner New Mexico Energy and Minerals Dept., Oil Conserv. Div. P.O. Box 2088 Santa Fe. New Mexico 87504

Re: Unorthodox Well Location: 1190' FSL & 990' FEL, Sec. 34-T14S-R27E, Buffalo Valley "34" Fed. Com., Well No. 1 for Bill Fenn, Inc.

Dear Mr. Stogner:

Bill Fenn, Inc., P.O. Box 569, Giddings, TX 78942 is applying for administrative approval of an unorthodox well location for the above captioned well under the provisions of paragraph F of rule 104 of the New Mexico Conservation Commission Rules and Regulations.

The proposed location meets all of the Buffalo Valley Penn field rules with the exception of the 330' distance from the quarter-quarter inner boundary. This location was selected for geologic and topographic reasons. The only other acceptable orthodox location, that met the geologic requirements, was 1650' FSL, but the topography prevented using this location. The orthodox 990' FSL location is the existing well site of the Read & Stevens, Inc. Derrick Fed. Com., Well No. 1. Exhibit "A" is a portion of the Derrick Draw U.S.G.S. Topo map showing the two locations. The proposed location is using part of the existing well site.

According to Buffalo Valley rules the offset operators on the south, southeast and east have been notified by certified mail, with three copies of this letter and is asked to indicate waiver of objection, by authorized signature in the space provided, on two copies. The operators are requested to mail one signed copy to Mr. Mike Stogner, New Mexico Oil Conservation Dept., and one signed copy to George R. Smith, Energy Administrative Services Co., in the stamped, self addressed envelopes provided.

Sincerely yours, ENERGY ADMINISTRATIVE SERVICES CO.

Deorge & Smith
George R Smith

Mr. Mike Stogner New Mexico Energy and Minerals Dept., Oil Conserv. Div. P.O. Box 2088 Santa Fe, New Mexico 87504

Re: Unorthodox Well Location: 1190' FSL & 990' FEL, Sec. 34-T14S-R27E, Buffalo Valley "34" Fed. Com., Well No. 1 for Bill Fenn, Inc.

Dear Mr. Stogner:

Bill Fenn, Inc., P.O. Box 569, Giddings, TX 78942 is applying for administrative approval of an unorthodox well location for the above captioned well under the provisions of paragraph F of rule 104 of the New Mexico Oil Conservation Commission Rules and Regulations. Request for this approval was mailed earlier today.

The offsetting lease operators were notified by letter, with one waiver included with the application. A portion of Sec. 3-T15S-R27E, consisting of NE½NW½, NW½NE½ and the S½NE½, is fee minerals owned by the Derrick family and is not leased at this time. The Derrick family leased their private minerals in the south half of Section 34-T14S-R27E to Bill Fenn, which will be communitized with the other leases to form the proration unit for this well, and are aware of the drilling of this well since they will be royalty owners. For this reason, waivers were not obtained from the family for Section 3. The logical operator of the north half of Sec. 3-T15S-R27E at this time would appear to be the Yates Oil Corp., etal, who control 160 acres of Federal leases and a total of 440 acres in the section. Exhibit "A" is a portion of a lease map showing the fee minerals in relation to the leased acreage surrounding it.

This information is provided as a follow up to our conversation today.

Sincerely yours,

ENERGY ADMINISTRATIVE SERVICES CO.

George R./Smith
