Attention: Ken E. White

Administrative Order NSL-2812

Dear Mr. White:

Reference is made to your application dated March 21, 1990 for two non-standard producing oil well locations to permit the completion of an efficient production/injection pattern within the Langlie-Jal Unit Area Waterflood Project, Lea County, New Mexico. Both wells are to be dedicated to a standard 40-acre oil spacing and proration unit comprising the SW/4 NE/4 (Unit G) of Section 5, Township 25 South, Range 37 East, NMPM, Seven Rivers and Queen formations, Lea County, New Mexico.

By the authority granted me under the provisions of General Rule 104 F(I), both of the following described unorthodox oil well locations are hereby approved.

Langlie-Jal Unit Well No. 113 1400 feet from the North line and 1350 feet from the East line; and Langlie-Jal Unit Well No. 114 1400 feet from the North line and 2600 feet from the East line. Sincerely, William J. LeMay Director

Corrected Administrative Order NSL-2812

Dear Mr. White:

It appearing to the Division that Administrative Order NSL-2812, dated June 21, 1990 does not correctly state the intended order of the Division, the description of the location for the Langlie-Jal Unit Well No. 114 should read "1270 feet from the North line and 2600 feet from the East line."

All other provisions of said Order NSL-2812 shal remain in full force and effect.

Sincerely,

Michael E. Stogner Petroleum Engineer
