Attention: Peggy Bradfield

*Administrative Order NSL-2824*

Dear Ms. Bradfield:

Reference is made to your application dated June 5, 1990 for a non-standard Basin-Fruitland coal gas well location for your existing Johnson Well No. 2 which was drilled in 1953 and completed in the Fulcher Kutz Pictured Cliffs Pool at a standard gas well location 1625 feet from the South line and 1090 feet from the East line (Unit I) of Section 21, Township 27 North, Range 10 West, NMPM, San Juan County, New Mexico.

It is my understanding that the Pictured Cliffs zone will be properly plugged back and said well will be recompleted to the Basin-Fruitland Coal Gas Pool, which pursuant to the Special Rules and Regulations for the Basin-Fruitland Coal Gas Pool as promulgated by Division Order No. R-8768, is unorthodox. Further, E/2 of said Section 21 shall be dedicated to the well forming a standard 320-acre gas spacing and proration unit for said pool.

By the authority granted me under the provisions of Rule 8 of said Division Order No. R-8768, the above-described unorthodox coal gas well location is hereby approved.

Sincerely,

A handwritten signature in black ink, appearing to read 'William J. LeMay', with a long, sweeping horizontal stroke extending to the right.
