Gentlemen:

Attached is a copy of Chevron's administrative application for NMOCD approval of an Unorthodox Gas Well Location and Simultaneous Dedication in the Eumont Yates 7 Rvrs QN (Pro Gas) Pool.

Chevron plans to drill the R. R. Bell (NCT-F) #3, located 1520 feet FNL and 1820 feet from FWL of Section 36, T-20-S, R-36-E, Lea County, New Mexico. This location will be within an existing 320-acre Eumont Gas Proration Unit currently dedicated to Chevron's existing R. R. Bell (NCT-F) Well No. 2. We plan to Simultaneously Dedicate this 320-acres to both of these wells. This location is unorthodox due to the proximity to the quarter-quarter section, less than 330', resulting from topographic restraints at the orthodox location.

As an offset operator, if you do not have any objections to the attached application, please sign the enclosed waivers and mail the original and two copies to the NMOCD in Santa Fe and one copy to the NMOCD in Hobbs. We would also request that you send a copy to Chevron U.S.A. Inc. in Midland. We have enclosed self addressed, stamped envelopes for your convenience.

If you have any questions, please contact Mr. A. W. Bohling at (915) 687-7246. Your prompt consideration in the above matter is appreciated.
