Mr. William Lemay, Director
Oil Conservation Division
New Mexico Department of Energy,
Minerals and Natural Resources
State Land Office Building
P.O. Box 2088
Santa Fe, NM 87503

RE: Application of Union Oil Company
of California dba Unocal for a non-
standard Location of an existing well
recompletion to the Basin Fruitland
Coal (Gas) Rincon Unit #56, 2510' FSL
& 1830' FEL, NW/4 SE/4, Sec. 2, T26N-
R7W, Rio Arriba County, NM State 291

Dear Mr. Lemay:

Union Oil Company of California dba Unocal hereby makes this application for administrative approval for a non-standard and unorthodox location to the Basin Fruitland Coal (Gas) formation as per Rule 8, Special Rules and Regulations for the Basin Fruitland Coal Gas Pool. The subject well, located in the SE/4 Sec. 2, T26N-R7W, was originally drilled to the Blanco Pictured Cliffs South formation and is no longer productive. It is proposed to plug back the Pictured Cliffs formation and recompleate uphole to the Fruitland Coal formation.

Since this well is located in the SE/4 of the section it is off pattern and therefore non-standard in the Basin Fruitland Coal. In addition, due to resurveying of the township a recent resurvey of the subject well, indicates the well is now located in an unorthodox location. See attached C-102.

A letter notifying offset operators of Unocal's intent and this application for administrative approval has been submitted to all offset operators by certified mail return receipt with a request that they furnish the NMOCD with a Waiver of Objection, and that they return one copy to Unocal.

A map of the lease is attached to this application showing offset operators and owners.

Also attached is a new C-102 showing the 320 acre dedication to the Basin Fruitland Coal and copies of the letters sent to offset operators.

Union Oil Company of California requests that the Director approve this application for a non-standard and unorthodox location.

Respectfully submitted,

Union Oil Company of California
dba UNOCAL

RE: Offset Owner Consent
Rincon Unit #56, 2J, T26N-R7W
Rio Arriba County, NM

Gentlemen:

Union Oil Company of California dba Unocal intends to recompleate the existing Rincon Unit #56 in the southeast quarter of Section 2, T26N-R7W to the Basin Fruitland Coal Gas formation. This well, originally drilled and completed to the Blanco Pictured Cliffs South, is no longer economic to produce. It is located 2510' FSL and 1830' FEL. An administrative approval application for a non-standard and unorthodox Basin Fruitland Coal Gas location has been made to the New Mexico Oil Conservation Division (NMOCD).

Since records show your company to be an offset owner, Unocal respectfully requests that you indicate your approval or disapproval of this project to the NMOCD. If you have no objection, please sign and date the Waiver of Objection given below, furnishing one copy to the NMOCD and forwarding one copy to the office indicated on the letter-head. Since this project is critial in regard to timing, your early response would be appreciated.

Respectfully submitted,

Union Oil Company of California
dba UNOCAL
