RE: Offset Owner Consent
Rincon Unit #56, 2J, T26N-R7W
Rio Arriba County, NM

Gentlemen:

Union Oil Company of California dba Unocal intends to recompleate the existing Rincon Unit #56 in the southeast quarter of Section 2, T26N-R7W to the Basin Fruitland Coal Gas formation. This well, originally drilled and completed to the Blanco Pictured Cliffs South, is no longer economic to produce. It is located 2510' FSL and 1830' FEL. An administrative approval application for a non-standard and unorthodox Basin Fruitland Coal Gas location has been made to the New Mexico Oil Conservation Division (NMOCD).

Since records show your company to be an offset owner, Unocal respectfully requests that you indicate your approval or disapproval of this project to the NMOCD. If you have no objection, please sign and date the Waiver of Objection given below, furnishing one copy to the NMOCD and forwarding one copy to the office indicated on the letter-head. Since this project is critical in regard to timing, your early response would be appreciated.

Respectfully submitted,

Union Oil Company of California
dba UNOCAL

Bill Hering
District Petroleum Engineer

WAIVER

National Cooperative Refinery Association hereby waives objection to Union Oil Company of California's application for a non-standard and unorthodox Fruitland Coal location in the Rincon Unit #56 as proposed above.

WELL LOCATION AND ACREAGE DEDICATION PLAT

All Distances must be from the outer boundaries of the section

Operator Union Oil Company of California			Lease Rincon Unit E-291-3		Well No. 294
Tract Letter A	Section 2	Township 26N	Range 7W	County NMPM Rio Arriba	
Actual Footage Location of Well:					
1219 feet from the North line and		1246' feet from the East line			
Ground level Elev. 6640'	Producing Formation Fruitland Coal	Pool Basin Fruitland Coal	Dedicated Acreage: 320 ^{321.35} Acres		

- Outline the acreage dedicated to the subject well by colored pencil or hatchure marks on the plat below.
- If more than one lease is dedicated to the well, outline each and identify the ownership thereof (both as to working interest and royalty).
- If more than one lease of different ownership is dedicated to the well, have the interest of all owners been consolidated by communitization, unitization, force-pooling, etc.?

☒ Yes ☐ No If answer is "yes" type of consolidation Unitization

If answer is "no" list the owners and tract descriptions which have actually been consolidated. (Use reverse side of this form if necessary.)

No allowable will be assigned to the well until all interests have been consolidated (by communitization, unitization, forced-pooling, or otherwise) or until a non-standard unit, eliminating such interest, has been approved by the Division.

RE: Application of Union Oil Company of California dba Unocal for
Administrative approval of the following Basin Fruitland Coal
(Gas) Non-Standard Location Applications for existing well
plugbacks:

Rincon Unit #122	SF079367-A
Rincon Unit #36	State 291 (Also unorthodox)
Rincon Unit #19	SF079364
Rincon Unit #117	SF079366
Day B #6	SF078571

As per our telephone conversation October 5 and October 9, 1990, I am
sending you this letter for the record in anticipation of receiving
your letter dated October 4, 1990 not yet received.

Regarding the problem of overlapping acreage dedication of the above
proposed Basin Fruitland Coal recompletions with approved APD's, I
have contacted Mr. Steve Mason of the BLM. He recommends that the
approved APD's should not be cancelled until the proposed work is
complete in case they are not successful and Unocal wishes to drill
them later. Cancellations of the approved APD's will be submitted
upon successful completion of the proposed recompletions to the 5
subject wells.

Unocal respectfully requests that administrative approval be granted.

Please contact me if I can help expedite these approvals.

Sincerely yours,

Union Oil Company of California
dba UNOCAL
