Attention: A. W. Bohling

Administrative Order NSL-2954 (DD)

Dear Mr. Bohling:

Reference is made to your application dated November 8, 1990 for a non-standard surface oil well location for your Pacheco Federal Well No. 5 to be located 760 feet from the South line and 1580 feet from the West line (Unit N) of Section 31, Township 19 South, Range 28 East, NMPM, Fadeaway Ridge-Delaware Pool, Eddy County, New Mexico. It is our understanding that the subject well will be directionally drilled to a standard bottomhole location 760 feet from the South line and 1980 feet from the West line (Unit N) of said Section 31, and that the SE/4 SW/4 of said Section 31 shall be dedicated to the well forming a standard 40-acre oil spacing and proration unit.

By the authority granted me under the provisions of General Rule Nos. 111 and 104.F.1 the above-described unorthodox surface oil well location and directional drilling are hereby approved.

Sincerely,

William J. LeMay  
Director
