Re: Application for an Unorthodox Location (Mitchell Energy Corporation ) (Rosa Unit #347) 2095' FNL & 2150' FEL Sec. 19-T31N-R4W Basin Fruitland Coal Gas Pool Rio Arriba County, New Mexico

### Gentlemen:

Mitchell Energy Corporation respectfully submits for your approval an Application for Unorthodox Location for the Rosa Unit #347 well to be located 2095' FNL & 2150' FEL of Section 19-T31N-R4W, Basin Fruitland Coal Pool, Rio Arriba County, New Mexico.

The reason for the unorthodox location is due to topographical problems in the North half of this section. Also, at the request of the U.S. Forest Service, we plan to utilize a portion of an abandoned well location and access road so as to minimize the damage to the environment and wildlife habitat.

The attached Exhibits show the situation at the location and surrounding area.

All offset Operators and Lease Owners are being notified by certified mail at this mailing. The Return Receipt Cards will be provided when they are returned.

If further information is needed please feel free to contact me at (303) 292-4455.

Respectfully yours,

MITCHELL ENERGY CORPORATION

Orbut Hibuset

James C. Anderson District Production Manager

JCA/AL/jms Attch.
