*Amended Administrative Order NSL-3011*

Dear Mr. Simmons:

Reference is made to your application dated June 14, 1991 to amend Division Administrative Order NSL-3011, dated May 13, 1991, which authorized Falcon's 29-4 Carson "10" Well No. 1 to be drilled at an unorthodox coal gas well location 1337 feet from the North line and 398 feet from the East line (Unit H) of Section 10, Township 29 North, Range 4 West, NMPM, Basin Fruitland Coal Gas Pool, Rio Arriba County, New Mexico.

It is our understanding as a result of a resurvey of the surface location, it was found that the actual location is 1495 feet from the North line and 690 feet from the East line (Unit H) of said Section 10.

Division Administrative Order NSL-3011 is hereby amended to reflect said location change. Further, all other provisions of said Order NSL-3011 shall remain in full force and effect until further notice.

Sincerely,

A handwritten signature in black ink, appearing to read "William J. Lemay".
