Application for Unorthodox Location
Madeleine N. Galt H 1E Well
1740' FNL, 790' FWL, Section 1-T27N-R10W
Basin Fruitland Coal Pool
San Juan County, New Mexico

Amoco Production Company hereby requests administrative approval for an unorthodox well location in the Basin Fruitland Coal Pool. Amoco plans to recomplete the existing Madeleine N. Galt H 1E Well from the Chacra formation to the Fruitland Coal formation. The Chacra formation is currently uneconomic. The well will continue to produce from the Dakota formation as a dual completion. The location of the well is 1740' FNL and 790' FWL of Section 1-T27N-R10W. Although this location is orthodox for the Chacra pool, it is unorthodox in the Basin Fruitland Coal Pool due to the required NE-SW pattern. All existing wells in the orthodox location are currently economic producers and are not candidates for recompletion.

A copy of this application will be submitted to the offset operators by certified mail with a request that they furnish your Santa Fe office with a Waiver of Objection, and return one copy to this office. Attached is a plat showing the location of the well and offset operators and a plat showing all wells drilled in the section.

Sincerely,

J. W. Hawkins

Application for Unorthodox Location
Madeleine N. Galt H 1E Well
1740' FNL, 790' FWL, Section 1-T27N-R10W
Basin Fruitland Coal Pool
San Juan County, New Mexico

NSL-3065

Amoco Production Company hereby requests administrative approval for an unorthodox well location in the Basin Fruitland Coal Pool. Amoco plans to recomplate the existing Madeleine N. Galt H 1E Well from the Chacra formation to the Fruitland Coal formation. The Chacra formation is currently uneconomic. The well will continue to produce from the Dakota formation as a dual completion. The location of the well is 1740' FNL and 790' FWL of Section 1-T27N-R10W. Although this location is orthodox for the Chacra pool, it is unorthodox in the Basin Fruitland Coal Pool due to the required NE-SW pattern. All existing wells in the orthodox location are currently economic producers and are not candidates for recompletion.

A copy of this application will be submitted to the offset operators by certified mail with a request that they furnish your Santa Fe office with a Waiver of Objection, and return one copy to this office. Attached is a plat showing the location of the well and offset operators and a plat showing all wells drilled in the section.

Sincerely,

JW Hawkins
