*Administrative Order NSL-3193(SD)*

Dear Mr. Bohling:

Reference is made to your application dated October 22, 1992, for an unorthodox Eumont gas well location in an existing non-standard 320-acre gas spacing and proration unit (GPU) for said Eumont Gas Pool comprising the N/2 of Section 33, Township 21 South, Range 36 East, NMPM, Lea County, New Mexico. Said GPU was authorized by Division Administrative Order NSP-607, dated July 3, 1962 and had dedicated thereon the Arnott-Ramsey (NCT-D) Well No. 3 located in Unit F of said Section 33.

By letter from the Division dated January 16, 1979, the Arnott-Ramsey (NCT-D) Well No. 15, drilled at a standard gas well location in Unit B of said Section 33, was simultaneously dedicated to said GPU.

It is my understanding that the subject well in this matter is currently a shut-in Eumont oil well and upon issuance of this order will be recompleted from the lower oil producing Queen zone to the Yates formation which should encounter gas.

By authority granted me under the provisions of Rule 2(c) of the Special Rules and Regulations for the Eumont Gas Pool, as promulgated by Division Order No. R-8170, as amended, the following described well located at an unorthodox gas well location is hereby approved:

*Arnott-Ramsey (NCT-D) Well No. 14  
1980' FNL - 660' FEL (Unit H)*

*Administrative Order NSL-3193(SD)*

*Chevron USA, Inc.*

*November 17, 1992*

*Page 2*

---

Also, you are hereby authorized to simultaneously dedicate Eumont Gas production from the Arnott-Ramsey (NCT-D) Well No. 14 with the Arnott-Ramsey (NCT-D) Well Nos. 3 and 15. Furthermore, you are hereby permitted to produce the allowable assigned the subject GPU from all of the said wells in any proportion.

Sincerely,

A handwritten signature in black ink, appearing to read 'William J. LeMay', with a long vertical line extending downwards from the end of the signature.

William J. LeMay  
Director
