Dear Mr. Worrell:

Reference is made to your letter dated December 7, 1992, to Mr. William J. Lemay of the New Mexico Oil Conservation Division concerning the captioned application, which letter contains the following statement: "Therefore, Hartman does not feel it is appropriate to object to Exxon's Administrative Application, provided that any future development of Hartman's Britt Laughlin Com lease will be afforded the same waiver of objection by Exxon."

This will confirm our phone conversation of December 15, 1992, in which: (1) I indicated that Exxon was not willing to make any general agreement to waive objections to the location of wells on Hartman's lease, and that Exxon's drilling on the captioned locations should not be construed as making any such agreement; and (2) you indicated that Doyle Hartman did not, by the above quoted language, intend to request that Exxon enter into any binding agreement to grant waivers in the future, and would not view Exxon's drilling on the captioned locations as making such an agreement.

Of course, Exxon will be glad to consider any requests by Doyle Hartman for specific waivers of objections to exception locations in the future.

Very truly yours,

for M. W. Stubbs
for James M. Stubbs
