Re: **APPLICATION FOR ORTHODOX WELL LOCATION**
APACHE "13" FEDERAL WELL NO. 1
330' FEL AND 1330' FNL
SECTION 13, TOWNSHIP 22 SOUTH, RANGE 30 EAST
EDDY COUNTY, NEW MEXICO

Dear Mr. Stogner:

Mitchell Energy Corporation hereby requests administrative approval of an unorthodox location for the subject well at the location shown above. An unorthodox location is being requested due to potash restrictions. A copy of relevant correspondence from the Bureau of Land Management (BLM) is attached. The Application for Permit to Drill was filed with the BLM on December 2, 1992. The well will be drilled to a depth sufficient to test the Morrow formation.

A plat showing the ownership of all tracts offsetting the spacing unit for the subject well is attached. A copy of this application has been sent to each of those parties.

If you have any questions, please call me at (713) 377-5818.

Sincerely,

MITCHELL ENERGY CORPORATION

RE: Apache "13" Federal Well No. 1
NM-89051
1980' FSL & 1980' FEL, Sec. 13, T22S, R30E
Eddy County, New Mexico

Dear Mr. Mullen:

On July 9, 1992, this office received an Application for Permit to Drill (APD) for the above referenced well location. This location falls within the designated Secretary's Potash Area as defined in the 1986 Secretary's Order.

Considerable time has been spent evaluating the physical characteristics of the ore body and the feasibility of economically mining potash in the subject area. A mineralogical evaluation of the various ore zones in the area leads us to conclude that the well site is located within a "Potash Enclave". Therefore, the drilling of this well may result in undue waste of potash.

In accordance with the 1986 Secretary's Order, the APD can not be approved at the present location. Therefore, your APD is returned unapproved. However, a shallower Delaware well could be drilled 330 feet or less from the eastern edge of the section, between 1320 and 3300 feet from the north line of the section.

This decision was given serious consideration by the Bureau of Land Management (BLM), regrettably, it may have an adverse impact to your company. Therefore, and in accordance with 43 CFR 3165.4, you may appeal this decision to the Interior Board of Land Appeals according to the procedures outlined on the enclosed Form 1842-1. Please contact Tony Herrell at (505) 887-6544, if you have any further questions.

Sincerely,

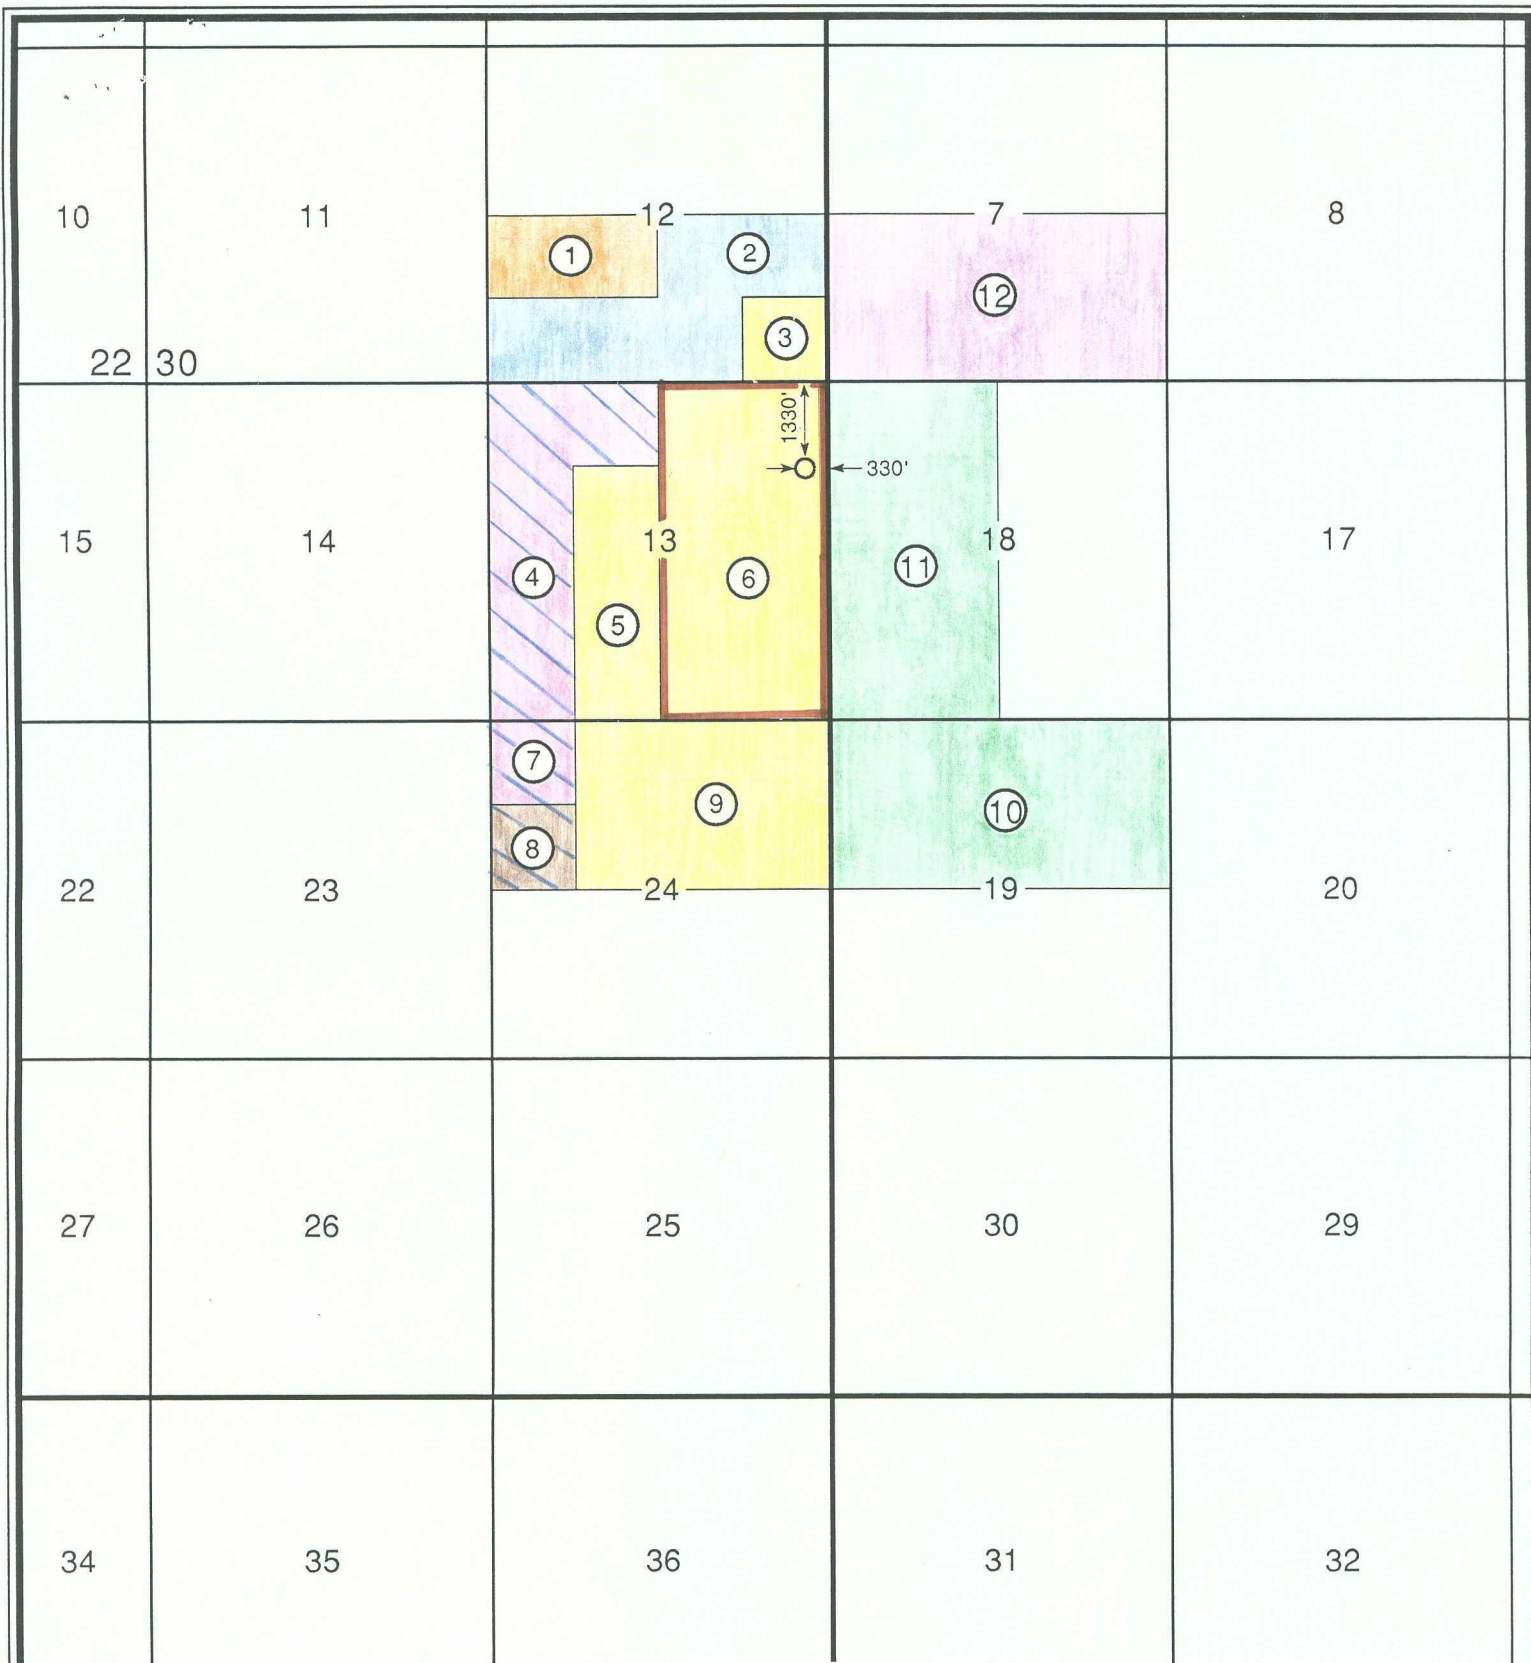

Larry L. Woodard
Larry L. Woodard
State Director
