Describe Cause of Problem and Remedial Action Taken.*	Heater Treater water dump froze, causing water to go into oil tanks and run over oil tanks. Remove water from oil tanks and haul to Sundance Disp. Replace w/ clean soil. And pick up 4 bbls of oil off ground.				
Describe Area Affected and Cleanup Action Taken.*	Inside lined area of firewall, pick up spill. Remove dirty soil and haul to Sundance Disp. Replace w/ clean soil.				
I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
