Describe Cause of Problem and Remedial Action Taken.*

Flowline leaked oil and water with an unknown volume released. Of the unknown amount, 310 barrels of oil and water were recovered on January 27, 2008.

Describe Area Affected and Cleanup Action Taken.*

Flowline leaked to pasture land. A vacuum truck was utilized to remove 310 barrels of oil and water. The remaining impacted soils were worked and impacted areas will be assessed and remediated to NMOCD guidelines.

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations
