San Juan County, New Mexico

Pool: BASIN DAKOTA (PRORATED GAS)

Gas 71599

Names: BLANCO-MESAVERDE (PRORATED GAS)

Gas 72319

OTERO CHACRA (GAS)

Gas 82329

Reference is made to your recent application for an exception to Rule 303.A. of the Division Rules and Regulations to permit the above-described well to commingle production from the subject pools in the wellbore.

It appearing that the subject well qualifies for approval for such exception pursuant to the provisions of Rule 303.C., and that reservoir damage or waste will not result from such downhole commingling, and correlative rights will not be violated thereby, you are hereby authorized to commingle the production as described above and any Division Order which authorized the dual completion or otherwise required separation of the zones is hereby placed in abeyance.

In accordance with Division 303C.(1)(f), the production attributed to any commingled pool within the well shall not exceed the allowable applicable to that pool.

Within this diversely owned well, assignment of allowable to the well and allocation of production from the well shall be based as follows: the Chacra shall be the remainder after subtracting the established Mesaverde and Dakota production declines from the total well production. Both Mesaverde and Dakota shall be based on established declines.

REMARKS: The operator shall notify the Aztec District Office of the Division upon implementation of commingling operations.

Pursuant to Rule 303C(2), the commingling authority granted herein may be rescinded by the Division Director if conservation is not being best served by such commingling.

Order approved at Santa Fe, New Mexico on 2/4/2008.
