Re: Hamner #2M
Unit E (SWNW), 1695' FNL & 636' FWL, Sec. 28, T29N, R9W
San Juan Co., NM API - 30-045-33995

Dear Sir:

This is a request for administrative approval for a non-standard gas well location in the Basin Dakota and Blanco Mesaverde pools.

The proposed Hamner #2M was staked as a commingle Dakota /Mesaverde well. The placement of the well is non-standard for the Dakota as per Order 10987-B (2) and the Mesaverde per Order R-109887-A (1) since neither are in a Participating Area (PA). The well was staked at an unorthodox location due to terrain. There is a prominent ridge east of the proposed location and if we moved east another 24 feet there would have been cuts on the east side of thirty feet plus of which the BLM would not have approved. Consequently, we had to stake this well at a location is non-standard for the Basin Dakota and Blanco Mesaverde formations to best fit the terrain. See the attached topo and aerial map for further clarification.

Production from the Basin Dakota and the Blanco Mesaverde is included in the W/2 (320 acres) gas spacing unit of Section 28, T29N, R9W. Drilling was started on this well through an error on both our COPC Regulatory Department and NMOCD Aztec Office to recognize the need for the NSL approval maybe because it is only 24' off standard. I noticed the well being non-standard and discussed this with the OCD and we decided to submit the NSL application and notification as soon as possible. We will not produce this well until non-standard approval is received.

To comply with the New Mexico Oil Conservation Division rules, we are submitting the following for your approval of this non-standard location:

1. Approved APD cover page and C102 plat showing location of the well
2. 9 Section Plat showing wells in the area
3. Offset Operator Plat for Section 28, T29N, R9W is the east half of Section 29, T29N, R9W
4. Topo and aerial maps showing the location of the well

ConocoPhillips is the offset operator and notification has been provided to the WI owners of the affected unit indicated above. Please let me know if you have any questions about this application by calling me at 505-326-9518.

Sincerely,

Patsy Clugston
Sr. Regulatory Specialist

Re: Hamner #2M
Unit E (SWNW), 16195' FNL & 636' FWL, Sec. 28, T29N, R9W
San Juan Co., NM
API - 30-045-

I hereby certify that the since ConocoPhillips is the offset operator the Working Interest Owners have been notified by certified mail of our application for administrative approval for non-standard well location of the above well.
