Gentlemen:

Burnett Oil Co., Inc. respectfully requests an exception without notice and hearing to NMOCD Rule 104 for the Gissler A #31 (Loco Hills Paddock) well. The location was set during our staking with the BLM to work around some known blowout sites and an archaeological site in the area. The flowline will follow existing roadway to the Gissler A#2 tank battery on the lease. Our Federal lease NMLC 029338A includes the E ½ and SE ¼ of SW ½ of Section, 14 T17S, R30E and the NE ¼ of Section 23, T17S, R30E. The color plat shows most of the federal lease; the other shows the whole lease outlined in red. They both show we are the operator of record for the wells on all sides of the referenced well. **The interest ownership is the same for the entire lease.** A copy of our approved 3160-3 and the archaeological plat are also enclosed for your records.

Please contact the undersigned if you should need any more information or have any question.

Yours truly,

James H. Arline  
Materials Coordinator
