Mr. Michael E. Stogner
New Mexico Oil Conservation Division
P. O. Box 2088
Santa Fe, New Mexico 87504-2088

Dear Mr. Stogner:

Exxon Corp. requests administrative approval of an Unorthodox Location for the J. L. Greenwood #16 based on Rule 104 F,1 "the recompletion of a well previously drilled to a deeper horizon, provided said well was drilled at an orthodox or approved unorthodox location for such original horizon". The #16 was previously an oil completion at an orthodox location in the Paddock. Presently, the #16 is an oil completion in the Blinebry Oil and Gas Pool. Approval has been requested to add Blinebry perforations, acidize and frac. Adding Blinebry perforations will cause this well to go from an oil well to a gas well and therefore be at an unorthodox location in the Blinebry (Pro Gas) (Consolidated).

The J. L. Greenwood #13 is presently completed in the Blinebry (Pro Gas) (Consolidated). Both #13 and #16 are located in the SW/4 of Section 9, T22S-R37E, Lea County, Unit Letters L and N, respectively. Administrative approval is requested to Simultaneously Dedicate the SW/4 160 acres, to both the #13 and #16.

A list of the offset operators that have been notified and a copy of the letter and certified return receipts are enclosed. We have requested that they execute a waiver and send one copy to the N.M.O.C.D and one copy to Exxon.

Administrative Order NSC-3220 (SD) authorized the unorthodox location of well #9 and simultaneous dedication of wells #9 and #11 in the SE4, 160 acres, of Section 9, T22S-R37E.

Also enclosed is a copy of the C102 and C103 that were sent to the district. If you have any questions, please call me at 915/688-6782.

Sincerely,

Alex M. Correa

Offset Operators

Gentlemen:

Exxon Corp. has requested administrative approval of an Unorthodox Location for the J. L. Greenwood #16 and Simultaneous Dedication for the #13 and #16 in the Blinebry (Pro Gas) (Consolidated). These wells are located in Section 9, T22S-R37E, Lea County, New Mexico, Unit Letters L and N, respectively.

Approval is being requested to add additional Blinebry perforations to the #16, acidized and frac. Adding Blinebry perforations will cause this well to go from an oil well to a gas well and therefore be at an unorthodox location.

The #13 is presently completed in the Blinebry (Pro Gas) (Consolidated). Both the #13 and #16 are located in the SW quarter of Section 9 thus requiring Simultaneous Dedication. Copies of the documents sent to the N.M.O.C.D, Santa Fe, are enclosed.

If you have no objections to the above referenced Unorthodox Location and Simultaneous Dedication, please sign and return one copy of the enclosed waiver to the N.M.O.C.D. office in Santa Fe and one copy to me. Return envelopes are enclosed. If you have any questions, please call me at 915/688-6782.
