RE: San Isidro Well No. 5-15
San Isidro (Shallow) Unit
Sandoval County, New Mexico

Subject: Application for Administrative Approval

Dear Mr. Lemay:

Pursuant to Order No. R-7471-A-1, Energy Development Corporation (EDC) hereby applies for administrative approval of the San Isidro 5-15's unorthodox location. The proposed location is 1620' FFY & 1150' FSF of Section 5, T20N, R20W, N.M.P.M. Attached for your review is a copy of the C. 102 and a topographic map. Please note that a standard location 330' setback from the quarter-quarter section lines would not allow a location due to the close proximity of an unnamed arroyo.

A Waiver of Objection to this location has been verbally approved by Gary-Williams Production, as Operator of Section 4, T20N-R2W, N.M.P.M, Sandoval County, New Mexico. Mr. Craig Ambler of Gary-Williams Production will telecopy the NMOCD a copy of the signed waiver.

Please contact me at (713) 750-7536 if you need any additional information. Your prompt attention to this application is appreciated.

Sincerely,

ENERGY DEVELOPMENT CORPORATION

Mark S. Gerding

Attn: Mr. Craig Ambler

RE: San Isidro Well No. 5-15 Waiver
San Isidro (Shallow) Unit
Sandoval County, New Mexico

Dear Mr. Ambler:

As you are aware, Energy Development Corporation intends to drill the San Isidro Unit Well No. 5-15 well with a surface location of 1620' FEL x 1150' FSL of Section 3, T20N-R2W, N.M.P.M. Sandoval County, New Mexico. Attached herewith is a plat of the proposed drilling block and location of the well.

As the operator of Section 4, T20N-R2W, N.M.P.M., being an offset tract outside of the unit boundaries, EDC respectfully requests your waiver of objection to the proposed San Isidro Unit Well No. 5-15 insofar as the proposed well is a non-standard location.

Assuming you have no objection, please indicate your waiver of objection by executing this letter in the space indicated and sending one telecopy of the same to my attention at (713) 750-7581, as well as one telecopy to Mr. Mike Stogner at the NMOCD at (505) 827-5741.

Thank you for your assistance in this matter.

Sincerely,

Mark S. Gerding
Supervisor Environmental and Regulatory
Affairs

MEMORANDUM NO. 4-86

TO: ALL OPERATORS AND INTERESTED PARTIES
FROM: R. L. STAMETS, DIRECTOR 
SUBJECT: CLARIFICATION OF ADMINISTRATIVE APPROVAL PROCESSES IN CERTAIN
POOLS WITH SPECIAL RULES

Division Rule 1 provides in part that: "Special rules, regulations and orders have been and will be issued when requested and shall prevail as against General Rules, Regulations and Orders if in conflict therewith. However, whenever these General Rules do not conflict with special rules heretofore or hereafter adopted, these General Rules shall apply."

Over the years, many special pool rules have been written. Many of these contained special rules providing for administrative exceptions to such matters as location requirements or spacing unit size while others did not. One prevailing opinion is that the intent of those special rules without administrative exception provisions was to preclude such exceptions. The counter opinion is that when read with Rule 1, if nothing is said, then the administrative exception provisions in the General Rules shall apply.

Notice is hereby provided that it is henceforth to be Division policy to utilize the administrative exceptions or approval procedures of the General Rules when special pool rules are silent as to such exceptions. This policy will save both the Division and operators the cost of unnecessary hearings.

Any person who is aware of any pool with special rules which should preclude any of the administrative exceptions or approvals provided in the General Rules should notify this office of such situation at the earliest possible date providing the reasoning for precluding administrative exceptions. Thereafter, we would suspend this policy for such pool and schedule a case to modify such special rules to incorporate the necessary prohibitions.
