Re: 2011 Notification of Annual Sump Inspections, Transwestern Pipeline Company

Dear Mr. Lowe:

By this letter, Transwestern Pipeline Company is providing written notification to the Oil Conservation Division that the annual sump inspections will be completed for the following facilities by April 15, 2011:

San Juan Compressor Station	(GW-084)
Bisti Compressor Station	(GW-285)
Thoreau Compressor Station	(GW-080)
Mountainair Compressor Station	(GW-110)
Corona Compressor Station	(GW-089)
Roswell Compressor Station	(GW-052)
Monument Compressor station	(GW-197)
Gallup Compressor Station	(GW-325)

Submittal of this letter complies with the notification requirements presented in each facilities Discharge Plan.

Should your agency require additional information concerning this written notification, contact the undersigned at our Roswell Technical Operations office at (575) 625-8022.

Sincerely,

Larry Campbell

Larry,

The OCD does not allow the practice to 'leave in place' any unused equipment at any facility. The Owner/Operator shall verify that these unused BGT's have always maintained integrity and shall remove and properly dispose of them.

Subject: Concrete Disposal in Place

Leonard, at the Corona Compressor Station (GW-89) there are four (4) concrete pipeline supports that are below grade that Transwestern would like to abandon and leave in place. Each support is approximately one (1) cubic yard in dimension. The location of the 4 supports at the facility is: NW/4 section 36, T. 4S., R. 15E in Lincoln County. GPS coordinates are N33.91802 W105.32944. Transwestern is presently in the process of completing a pipeline recoating activity and approval of this request will expedite completion of the activity.

Your favorable reply to this request will be greatly appreciated.
