Denver, Colorado 80201**

Attention: Pamela W. Staley

Administrative Order NSL-3560

Dear Ms. Staley:

Reference is made to your application dated May 17, 1995 for an unorthodox Blanco-Mesaverde gas well location on an existing 320-acre gas spacing and proration unit ("GPU") for said Blanco-Mesaverde Pool comprising the E/2 of Section 21, Township 29 North, Range 8 West, NMPM, San Juan County, New Mexico. Said GPU presently has dedicated thereon the Hughes "B" Well Nos. 6 and 6-A located in Units "G" and "J", respectively, of said Section 21.

It is our understanding that the subject well in this application, the Hughes "B" Well No. 6-R (API No. 30-045-23341), formerly the Hughes Well No. 2, was originally drilled by Tenneco Oil Company in 1978 and completed in the Basin-Dakota Pool at a location that is considered to be unorthodox, however no record of approval for said unorthodox Dakota gas well location can be found, 2440 feet from the North line and 1770 feet from the East line (Unit G) of said Section 21. Pursuant to the *"General Rules For The Prorated Gas Pools of New Mexico/Special Rules and Regulations For The Blanco-Mesaverde Pool"*, as promulgated by Division Order No. R-8170, as amended, said location is also unorthodox for the Mesaverde interval.

Administrative Order NSL-3560
Amoco Production Company
August 8, 1995
Page 2

By the authority granted me under the provisions of Rule 2(d) of said special pool rules, the above-described unorthodox gas well location is hereby approved. Further, Amoco is authorized to simultaneously dedicate Blanco-Mesaverde gas production on the subject GPU from the No. 6-R well with the two existing Well Nos. 6 and 6-A. Said wells and GPU will be subject to all existing rules, regulations, policies, and procedures applicable to prorated gas pools in Northwest New Mexico.

Sincerely,

William J. LeMay
Director
