NATURE OF RELEASE

Type of Release Produced Water	Volume of Release Approx 30 bbl	Volume Recovered Approx 0 bbl
Source of Release Pipeline	Date and Hour of Occurrence 03/14/08, time unknown	Date and Hour of Discovery 03/14/08 3:00 PM
Was Immediate Notice Given? <input checked="" type="checkbox"/> Yes <input type="checkbox"/> No <input type="checkbox"/> Not Required	If YES, To Whom? Brandon Powell- OCD Mark Kelly- BLM	RCVD APR 1 '08 OIL CONS. DIV.
By Whom? Kim Champlin	Date and Hour 03/17/08 10:00AM	DIST. 3
Was a Watercourse Reached? <input checked="" type="checkbox"/> Yes <input type="checkbox"/> No	If YES, Volume Impacting the Watercourse. Approximately 30 bbl	

If a Watercourse was Impacted, Describe Fully.*

Produced water entered Coolidge Arroyo, that runs parallel to the pipeline, and traveled approximately 340 feet down the wash. Due to recent snow melt and obvious run off in the arroyo it is undetermined how much produced water entered the arroyo. Samples were collected along the area of the wash where the impact occurred.

Describe Cause of Problem and Remedial Action Taken * ☐ A lease operator noticed a water leak in a pipeline that was thought to have been isolated and abandoned. Upon investigation it was discovered that there was no isolation valve and thawing process had caused extra pressure to build up and push produced water back up to the old produced water meter. It is estimated that 30 barrels of produced water was released and an undetermined amount along with runoff from recent snow melt impacted the Coolidge Arroyo. The leaking pipeline was isolated and repaired. **Appropriate notifications were made and samples were collected.**

Describe Area Affected and Cleanup Action Taken *

The pipeline was immediately shut in and all tubing was closed. A isolation valve was installed and the line was abandoned. Samples were collected and after review of the results any required treatment of affected areas will be determined. A final report will be submitted.

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations
