Re: Applications of Meridian Oil Inc. for Administrative Approval of Unorthodox
Well Locations for its Rhodes B Federal Wells 4 and 7

Dear Mr. LeMay:

This is the response of Texaco Exploration and Production Inc. ("Texaco") to the letter of Leslyn M. Swierc, Senior Landman of Meridian Oil Inc. dated February 20, 1996 concerning the above-referenced applications.

As stated by Ms. Swierc, Meridian filed applications for administrative approval of unorthodox well locations for its Rhodes B Federal Wells No. 4 and 7 on December 21, 1995. A copy of Meridian's applications are enclosed for your easy reference. As you can see, these applications fail to meet the requirements of the Oil Conservation Division Rule 104 which was in effect on that date and accordingly cannot be approved by the Division.

On January 29, 1996, Ms. Donna J. Williams wrote Texaco stating Meridian had failed to notify Texaco, an offset operator, of these unorthodox locations. At Texaco's request, I objected to these locations by letter filed at the Division Santa Fe office on February 2, 1996 and requested these applications for unorthodox well locations be set for hearing on March 21, 1996. Copies of Ms. Williams letter to Texaco and Texaco's objection to these locations are enclosed herewith.

William J. LeMay, Director
Oil Conservation Division
New Mexico Department of Energy,
Minerals and Natural Resources
February 26, 1996
Page 2

Ms. Swierc responded for Meridian to our objections, and apparently an objection to these locations from Doyle Hartman Oil Operator, by writing the Division on February 20, 1996, providing her interpretation of the Rhodes Unit Agreement and a March 13, 1944 Side Agreement between the predecessors in interest of the current parties to this dispute. She also argued other selected facts concerning the history of the development of this area.

Texaco does not agree with Ms. Swierc's interpretation of these documents nor with her interpretation of the other facts set forth in her letter of February 20, 1996. Furthermore, Texaco objects to the ex parte manner in which Meridian has elected to pursue this matter with the Division. What Meridian requests is that the Division deny Texaco (and Hartman) a hearing on these unorthodox locations. They also apparently contend that private agreements override the duties of the Oil Conservation Division as set forth in the Oil and Gas Act. Both positions are legally incorrect.

Texaco Exploration and Production Inc. hereby renews its objection to the unorthodox well locations of the Meridian Oil Inc. Rhodes B Federal Wells No. 4 and 7 and request that these location requests be set for hearing before a Division Examiner on March 21, 1996. To deny this request would violate Texaco's due process rights and furthermore would make a mockery of the Oil Conservation Division's duty to protect correlative rights.

By copy of this letter, Texaco Exploration and Production Inc. is requesting that Meridian Oil Inc. make Ms. Williams and Ms. Swierc available from Meridian to testify and be cross-examined at the March 21, 1996 Examiner hearing. A response to this request is requested by March 1, 1996.

Very truly yours,

Mr. Stogner:

Meridian Oil Inc. respectfully request approval for two non-standard locations on the proposed above referenced new drill locations. This is pursuant to the request by the District Office in Hobbs. These were intended to be standard locations, but upon the staking, it was discovered to have topographic problems due to powerlines, pipelines, etc.

Re: Unorthodox Location
Meridian Oil Inc.
Rhodes "B" Federal No. 7

Gentlemen:

By letters dated December 21, 1995, and January 29, 1996, Meridian made application to the NMOCD for an unorthodox well location for its Rhodes "B" Federal No. 7 well situated 330' FNL and 1470' FWL of Section 26, T-26-S, R-37-E, Lea County, New Mexico.

NMOCD Rule 104(F)(3) pertaining to unorthodox well locations states that ... "applications for administrative approval of unorthodox locations" ... should be accompanied by a plat showing the subject spacing unit..." The original C-102 plat (copy enclosed), that was submitted by Meridian as part of its Rhodes "B" Federal No. 7 unorthodox location application, described the dedicated proration unit as being the 160-acre tract consisting of the NW/4 of Section 26, T-26-S, R-37-E. Meridian's "APD" and C-102 also classified the proposed new well as a "Rhodes Gas Pool" well.

As offset operators affected by Meridian's Rhodes "B" Federal No. 7 well, Doyle Hartman and James A. Davidson have received no amended notices from Meridian pertaining to Meridian's Rhodes "B" No. 7 unorthodox well location application. However, a review yesterday of the NMOCD's Hobb's well file for the Rhodes "B" Federal No. 7 well reveals that Meridian has apparently amended its "APD" and C-102 for the Rhodes "B" Federal No. 7 well, but, as required under Rule 104(F)(3), has failed to furnish Hartman and Davidson with a revised unorthodox location application that includes Meridian's amended acreage dedication.

As a consequence of Meridian's revised C-102, and based on Meridian's letter to the NMOCD of February 20, 1996, we are assuming that Meridian expects to operate its Rhodes "B" Federal No. 7 well as a "gas well in an oil pool" located on a 40-acre proration unit, which well classification

Michael J. Stogner
February 28, 1996
Page two

allows Meridian to produce from the same identical producing interval that corresponds to the Rhodes Yates-Seven Rivers Gas Pool, but under more liberal setback requirements (330' versus 660') and closer well spacing (40-acres compared to 160-acres).

Therefore, because of the inherent advantages already provided to a well classified as a "gas well in an oil pool", as affected offsetting parties owning interests under the proposed 160-acre Rhodes Gas Pool proration unit consisting of the SW/4 Section 23, T-26-S, R-37-E, this letter is notice that Doyle Hartman and James A. Davidson object to Meridian's unorthodox Rhodes "B" Federal No. 7 Rhodes Yates-Seven Rivers Oil Pool location consisting of 330' FNL and 1470' FWL of Section 26, T-26-S, R-37-E, which unorthodox location encroaches closer, than existing rules would otherwise allow, to Texaco's pending compulsory-pooling Rhodes Gas Pool location consisting of 660' FSL and 660' FWL of Section 23, T-26-S, R-37-E.

Finally, being that Meridian's "APD" for its Rhodes "B" No. 7 well was approved subject to the condition that it "...CANNOT produce until its non-standard [unorthodox] location is approved...", we respectfully request that Meridian be restricted from producing its Rhodes "B" No. 7 well until a hearing has been held before the NMOCD.

Very truly yours,

DOYLE HARTMAN, Oil Operator
