Richard Ezeanyim Oil Conservation Division 1220 South St. Francis Drive Santa Fe, New Mexico 87505

Dear Mr. Ezeanyim:

Pursuant to Division Rule 104.F(2), Mewbourne Oil Company applies for approval of an unorthodox oil well location for the following well:

Well:	Crow Flats 28 Fed. Well No. 1
Location:	400 feet FNL & 1300 feet FWL
Well Unit:	NW <sup>1</sup> / <sub>4</sub> NW <sup>1</sup> / <sub>4</sub> of Section 28, Township 16 South, Range 28 East,
	N.M.P.M., Lea County, New Mexico

The well will be drilled as a horizontal well to test the Wolfcamp formation. An APD for the well, with a form C-102, is attached as Exhibit A. The well's surface location was mandated by the BLM, and the horizontal wellbore will be orthodox in the Wolfcamp formation. **However**, in the event that the well is unsuccessful in the Wolfcamp formation, applicant will attempt a completion in the Penrose/Grayburg formation (wildcat), and it requests unorthodox location approval in that formation.

All of Section 28 is covered by Federal Lease NM 83066. Exhibit B. Ownership is common throughout the section. Therefore, there is no adversely affected interest owner, and notice of this application has not been given to anyone.

Please contact me if you need any further information on this application.

Very truly yours, lue PU James Bruce
