**RE: Application of OXY USA Inc. for Non-Standard Gas Well Location
for the Government AL #2, 660 FNL 2060 FEL Sec 17 T20S R28E,
Undesignated Yates, Eddy County, New Mexico**

Dear Sir:

OXY USA Inc. respectfully requests administrative approval of this application for the subject unorthodox gas well location. The surface location was staked 580' from the west lease line to use the same well pad as our Government AL #1. This was done to minimize surface disturbance and costs for this shallow gas well. The well is 76' west from the Government AL #1, which was drilled at a legal location. An orthodox location on the existing well pad is not available due to the location of the tank battery and related facilities as shown on Exhibit A.

At this depth, OXY USA Inc. is the lessee of record for the affected area (NW/4 Sec 17, SW/4 Sec 8). A Form C-102 for this well is attached and a map showing all existing wells within one mile, Exhibit B.

A copy of the Notice of Staking that was filed with the BLM is attached. They have conducted their onsite and approval is expected pending filing of the Application for Permit to Drill.

If you have any questions relating to this application, please contact me @ 915-685-5717. Thank you for considering our application.

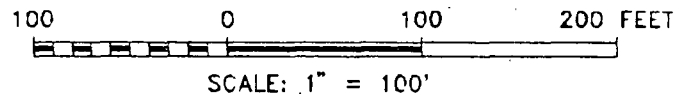

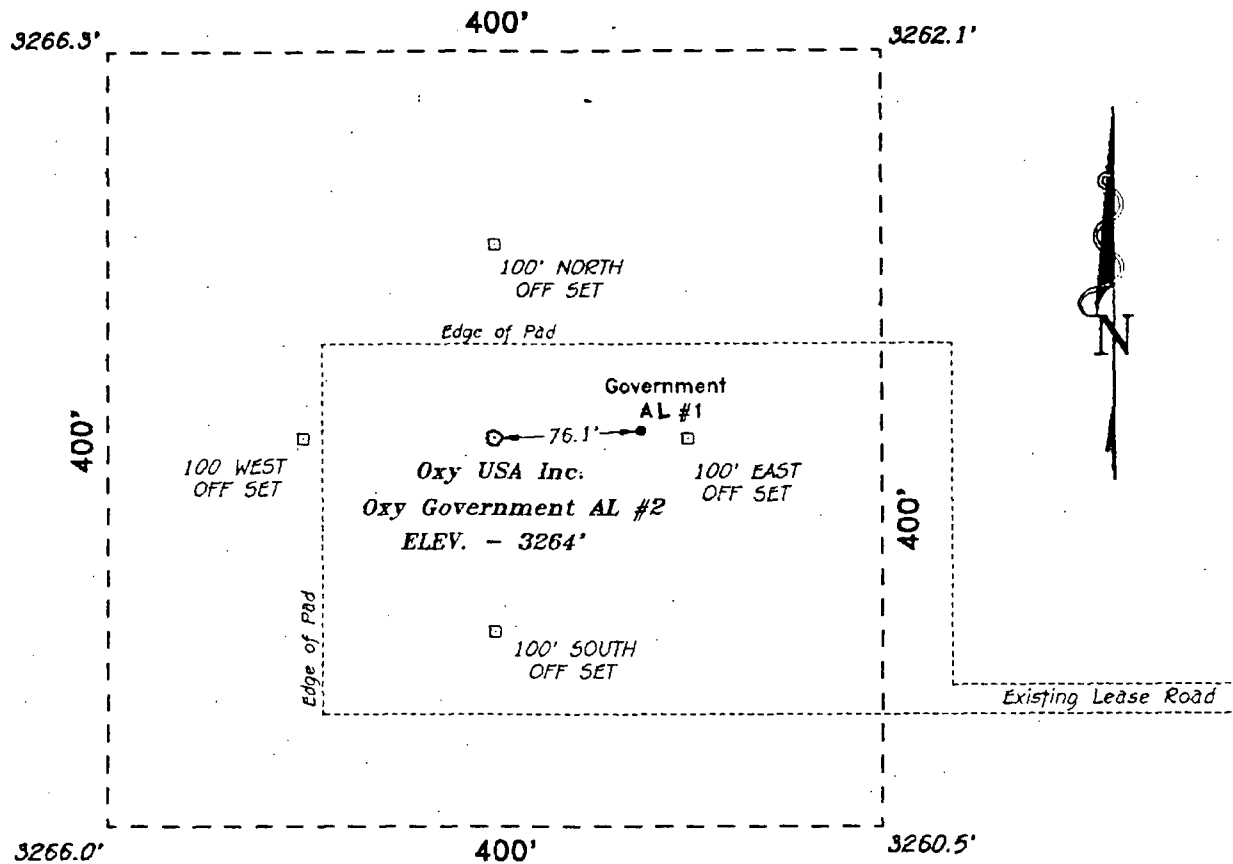

Sincerely,

David Stewart
