Attention: Mr. Michael E. Stogner

Gentlemen:

An Exception to Rule 104 F. (2) by administrative approval, is requested for the captioned well. This well is located 1400' FNL & 330' FWL, Unit Letter "E", of Section 35, T-24-S, R-37-E.

This well must be drilled in this location due to geological conditions. As seen on the attached map, this location is approximately equidistance to the offsetting 40 Acre producers. The proposed location will encounter laterally discontinuous reservoirs that can not be depleted from existing wellbores. If secondary recovery operations are needed in the future, the proposed location will allow the implementation of standard patterns.

There are no "affected offset operators" to this location. Attached is Form C-102 for this well.

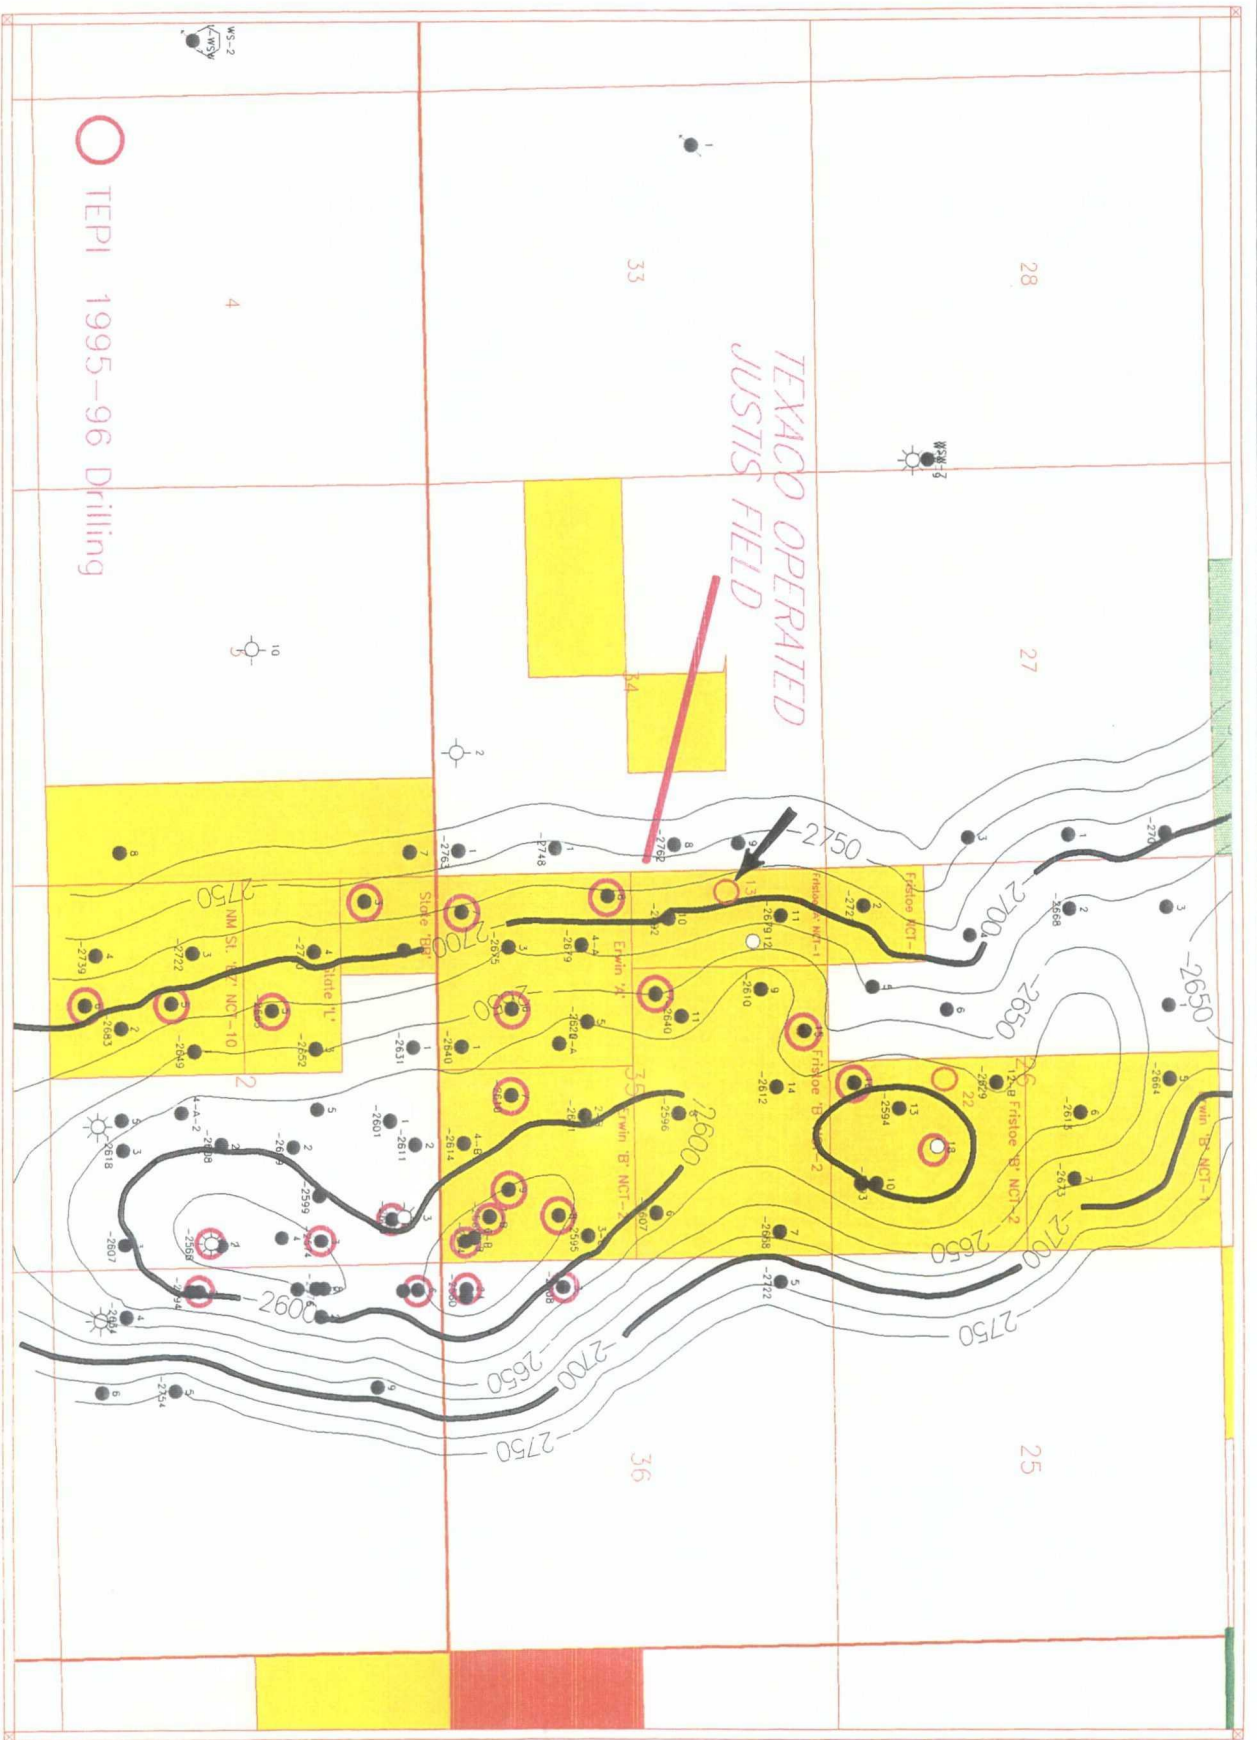

Yours very truly,

C. Wade Howard

A 32x36 grid with numbers 1-36 in the top row and 1-31 in the left column. The grid is composed of small squares, with the numbers 1 through 36 placed in the top row and 1 through 31 placed in the left column. The numbers are arranged in a regular pattern, with the top row containing numbers 1 to 36 and the left column containing numbers 1 to 31. The grid is used for a mathematical exercise involving the calculation of the sum of the numbers in the top row and the left column.
