Attention: Peggy Bradfield

Administrative Order NSL-3881-A

Dear Ms. Bradfield:

Reference is made to your application dated February 16, 1998 requesting the amendment of a previously approved order by the Division of an unorthodox Blanco-Mesaverde gas well location by expanding the vertical limits of the provisions in said order to include the deeper Basin-Dakota Pool.

Division Administrative Order NSL-3881, dated October 8, 1997, authorized Burlington Resources Oil and Gas Company to drill its San Juan "30-6" Unit Well No. 46-A at an unorthodox infill gas well location in the Blanco-Mesaverde Pool 1450 feet from the South line and 670 feet from the East line (Unit I) of Section 11, Township 30 North, Range 6 West, NMPM, Rio Arriba County, New Mexico, within an existing standard 320-acre, more or less, gas spacing and proration unit ("GPU") comprising the E/2 equivalent of said Section 11.

It is our understanding that Burlington now intends to drill to the Basin-Dakota Pool and dually complete said well, and, pursuant to Rule 2(b)1 of the "General Rules for the Prorated Gas Pools of New Mexico/Special Rules and Regulations for the Basin-Dakota Pool," as promulgated by Division Order No. R-8170, as amended, said location is also considered to be unorthodox. The E/2 equivalent of said Section 11 is also to be dedicated to said well in order to form a standard 320-acre, more or less, gas spacing and proration unit in the Basin-Dakota Pool.

By the authority granted me under the provisions of Rule 2(d) of said special pool rules for the Basin-Dakota Pool the above-described unorthodox gas well location for the San Juan "30-6" Unit Well No. 46-A is hereby approved.

All provisions of said Administrative Order NSL-3881 shall remain in full force and effect until further notice.

Jurisdiction of this cause is retained for the entry of such further orders as the Division may deem necessary.

Sincerely,

Lori Wrotenbery
Director
