Deputy Cabinet Secretary

**Mark Fesmire**  
Division Director  
Oil Conservation Division

Administrative Order PLC-314  
August 28, 2008

Chevron U S A, Inc.  
15 Smith Road  
Room 3337  
Midland, TX 79705

Attention: Carolyn Haynie

Chevron U S A, Inc. (OGRID No. 4323) as operator is hereby authorized to surface-commingle oil and gas production from the 40-acre oil spacing and proration units (pools and wells) shown on the attached Exhibit A, all located within the NE/4 of Section 9, Township 22 South, Range 37 East, Lea County, New Mexico.

The Brunson-Argo Well No. 30 (API No. 30-025-38886) is being commingled into the previously approved PC-1172 surface commingle. This well is the only producer from the Penrose Skelly; Grayburg Oil Pool within this commingle. It is our understanding the Grayburg has separate ownership than the other formations – therefore oil and gas from any well producing from the Grayburg must be separated and measured prior to commingling with oil and gas from other Pools within this NE/4 of Section 9 for measurement and sales.

Notice has been provided to all owners within this described surface commingle and no objection has been received.

It is the responsibility of the producer to notify the transporter of this commingling authority. The operator shall notify the Hobbs district office of the Division upon commencement of commingling operations.

MARK E. FESMIRE, P.E.,  
Division Director

MEF/wvj  
cc: Oil Conservation Division – Hobbs  
PC-1172
