NATURE OF RELEASE

Type of Release HISTORICAL HYDROCARBON	Volume of Release HISTORICAL	Volume Recovered HISTORICAL
Source of Release HISTORICAL UNKNOWN	Date and Hour of Occurrence	Date and Hour Discovery HISTORICAL
Was Immediate Notice Given? <input type="checkbox"/> Yes <input type="checkbox"/> No <input checked="" type="checkbox"/> Not Required	If YES, To Whom?	
By Whom?	Date and Hour	
Was a Watercourse Reached? <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No	If YES, Volume Impacting the Watercourse.	
If a Watercourse was Impacted, Describe Fully.*		
Describe Cause of Problem and Remedial Action Taken.* Landowner, Mr. Jimmy Cooper, requested through Trishia Bad Bear of the BLM, that this historical-impact area be reclaimed. The area was hydrocarbon hardpan located near an abandoned oil transportation pipeline of unknown ownership and the Britt B-18 #3 oil well. JHHC voluntarily agreed to perform this housekeeping action. Trishia BadBear witnessed final composite sampling event.		
Describe Area Affected and Cleanup Action Taken.* The impacted pasture hardpan area was excavated and restored with clean material purchased from the landowner. 150 yds ³ of impacted soil was transported to the Hendrix landfarm. Ground water is <50' BGS at this location. A composite sample showed BTEX < 50 mg/kg but excess TPH. Additional excavation was done. Final bottom composite sample was taken to Environmental Labs of Texas. TPH results were < 100 mg/kg. Chloride analysis was performed at Cardinal Labs with results of <16 mg/kg. Results and after-photo are attached. Area will be seeded with BLM Mix #2.		
I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
