Subject: Notification to Compete Groundwater Monitoring at the DCP Lee site (GW-002)

ARC Environmental will complete groundwater monitoring activities at the DCP Lee site (GW-002). The project site is located in Unit N, Sec 30, Township 17S, Range 35E. Coordinates are 32.800 north, 103.495 west, Lea County

The activities to be completed include:

1. Measure fluid levels in all monitoring wells associated with the study area.
2. Purge a minimum of three casing volumes from select monitoring wells that do not contain free product and continue purging as necessary until the field temperature, pH and conductivity stabilize.
3. Collect groundwater samples for BTEX from the purged wells.
4. Dispose of all affected purge water at the DCP Linam Ranch facility.

The activities will begin on September 16, 2008 no earlier than 0800 MDT.

Please contact me by email or by phone if you have any questions and/or comments.
