## Administrative Order NSL-5915

**Re: Pearsall 6 Federal Well No. 9**  
**API No. 30-025-**  
**1750 feet FSL and 1060 feet FEL**  
**Unit I, Section 6, Township 18-S, Range 32-E**  
**Lea County, New Mexico**

Dear Ms Johnson:

Reference is made to the following:

(a) your application (**administrative application reference No. pKVR08-22438842**) submitted to the New Mexico Oil Conservation Division (the Division) in Santa Fe, New Mexico on August 11, 2008, and

(b) the Division's records pertinent to this request.

Nadel and Gussman Heyco, L.L.C. (NGH) has requested to drill the above-referenced well at an unorthodox oil well location described above in the caption of this letter. The NE/4 SE/4 of Section 6 will be dedicated to this well in order to form a standard 40-acre spacing unit in the North Young-Bone Spring Pool (65350). This pool is governed by statewide Rule 104.B(1), which provides for 40-acre units, with wells located at least 330 feet from a unit outer boundary. This location is less than 330 feet from the western unit boundary.

Your application has been duly filed under the provisions of Division Rules 104.F and 1210.A(2).

It is our understanding that you are seeking this location for topographic reasons, because of sand dunes.

September 5, 2008

Page 2

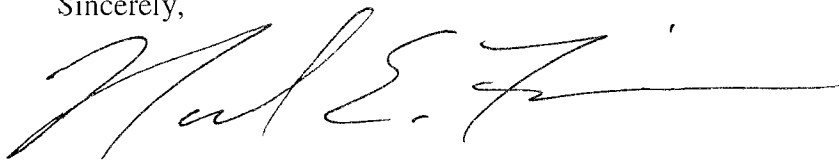

It is also understood that notice of this application to offsetting operators or owners is unnecessary due to common ownership.

Pursuant to the authority conferred by Division Rule 104.F(2), the above-described unorthodox location is hereby approved.

This approval is subject to your being in compliance with all other applicable Division rules, including, but not limited to Division Rule 40.

Jurisdiction of this case is retained for the entry of such further orders as the Division may deem necessary.

Sincerely,

A handwritten signature in black ink, appearing to read "Mark E. Fesmire", with a long horizontal flourish extending to the right.

Mark E. Fesmire, P.E.  
Director
