## NATURE OF RELEASE

Type of Release	LINE LEAK	Volume of Release	500 bbl	Volume Recovered	400 bbl
Source of Release	Produced Water - Lateral Line	Date and Hour of Occurrence	9/7	Date and Hour of Discovery	9/8/08 - 8:00 AM
Was Immediate Notice Given?	<input checked="" type="checkbox"/> Yes <input type="checkbox"/> No <input type="checkbox"/> Not Required	If YES, To Whom?	NMOCD (voice mail) Buddy Hill		
By Whom?	David Paschal	Date and Hour	9-8-08	2:00 PM	
Was a Watercourse Reached?	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No	If YES, Volume Impacting the Watercourse.			

If a Watercourse was Impacted, Describe Fully.\*

N/A

Describe Cause of Problem and Remedial Action Taken.\*

Internal corrosion caused a small hole in the steel 4" water injection lateral line. The steel spool will be replaced with a new spool and will be plastic coated internally.

Describe Area Affected and Cleanup Action Taken.\*

Vacuum trucks were used to pick up approx. 400 bbl's of produced water off the ground and hauled to an approved disposal site. Contaminated soil will also be hauled off and will take soil samples. John Good will be the Enviro. Consultant, overseeing remediation.

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
