Administrative Order NSL-5971

Re: BC Federal Well No. 39
API No. 30-025
2360 feet FNL and 1650 feet FWL
Unite F, Section 19-17S-32E
Lea County, New Mexico

Dear Ms Odom:

Reference is made to the following:

(a) your application (**administrative application reference No. pKVR08-31253905**) submitted to the New Mexico Oil Conservation Division (the Division) in Santa Fe, New Mexico on November 7, 2008, and

(b) the Division's records pertinent to this request.

COG Operating, LLC (COG) has requested to drill the above-referenced well at an unorthodox oil well location, described above in the caption of this letter. The SW/4 NW/4 of Section 19 will be dedicated to this well in order to form a standard 40-acre spacing unit in the West Maljamar Yeso Pool (44500). This pool is governed by statewide Rule Part 15, Section 9.A [19.15.15.9.A NMAC], which provides for 40-acre units, with wells located at least 330 feet from a unit outer boundary. This location is less than 330 feet from the southern unit boundary.

Your application has been duly filed under the provisions of Division Rules Part 15, Section 13 [19.15.15.13 NMAC] and Part 4, Section 12.A(2) [19.15.4.12 NMAC].

It is our understanding that you are seeking this location because of sand dunes.

December 3, 2008

Page 2

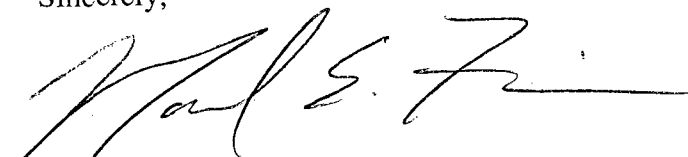

It is also understood that notice of this application to offsetting operators or owners is unnecessary due to common ownership.

Pursuant to the authority conferred by Division Rule Part 15, Section 13.B [19.15.15.13 NMAC], the above-described unorthodox location is hereby approved.

This approval is subject to your being in compliance with all other applicable Division rules, including, but not limited to Division Rule Part 5, Section 9 [19.15.5.9 NMAC].

Jurisdiction of this case is retained for the entry of such further orders as the Division may deem necessary.

Sincerely,

A handwritten signature in black ink, appearing to read 'Mark E. Fesmire', with a long horizontal flourish extending to the right.

Mark E. Fesmire, P.E.
Director
