**Subject:** Rice Operating Company - Quarterly Report for NMOCD # 1R427-87  
**Attachments:** EME H-20 SWD 3rd qtr 2008 graphic 1.pdf

Dear Edward,

Given below is our quarterly update for the above-reference Rice Operating Company project, EME H-20 SWD.

Rice Operating Company is proceeding with the work elements outlined in the NMOCD approved Corrective Action Plan (CAP) of March 7th, 2008 for this project; (please see attached graphic). Rice has received the solar powered bio-sparging unit from the vendor and is presently assembling the unit. We expect to install this system and have it operational by year's end; (bio-sparge locations are shown in the attached site map). Quarterly groundwater monitoring continues and will be summarized in our annual report for 2008.

Please contact me if you have any questions or need additional information.

Thank you.

Sincerely,

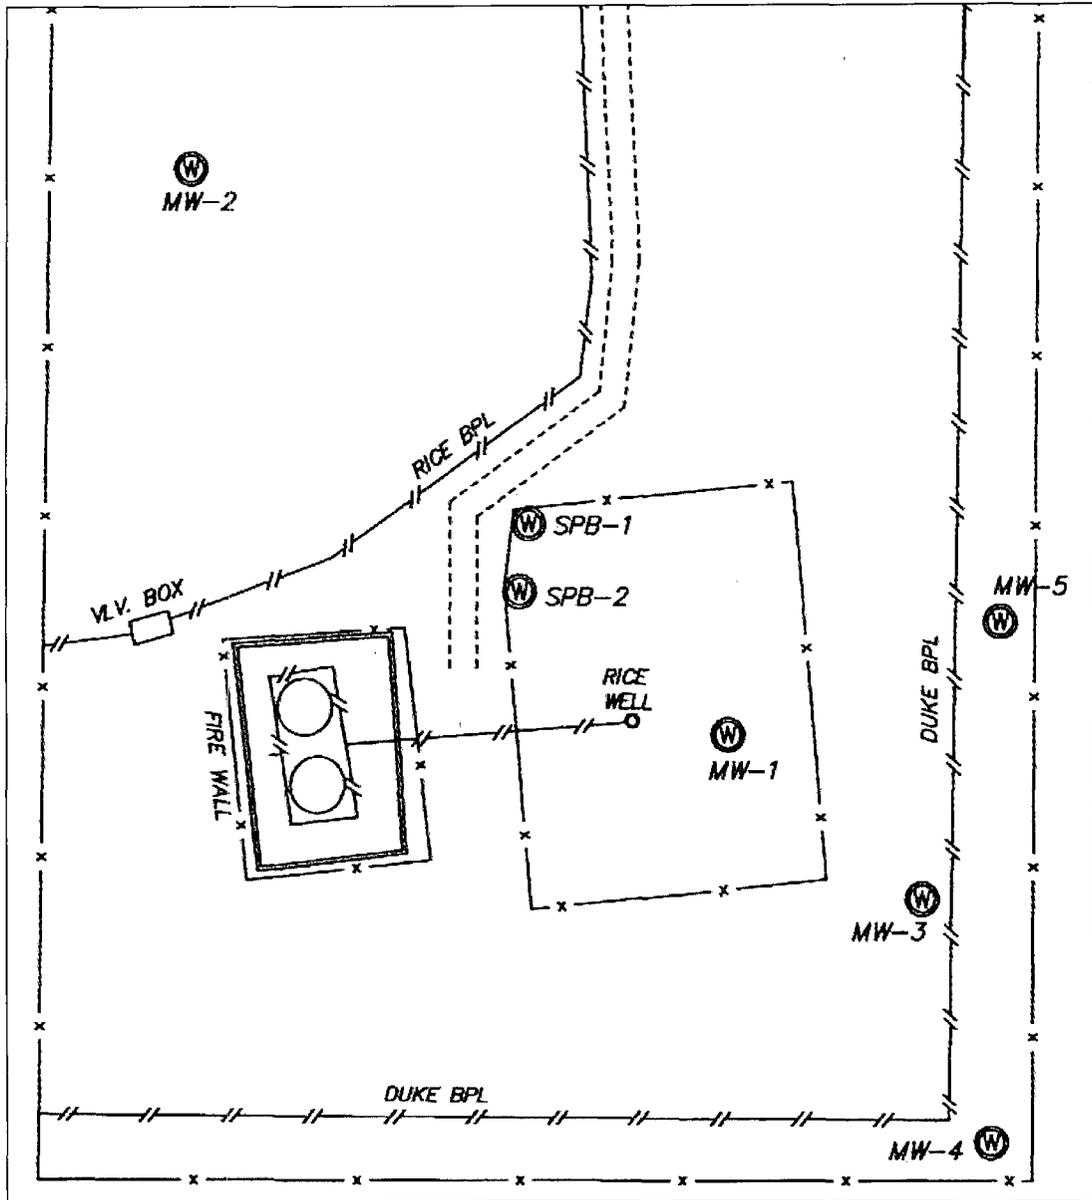

Pete G.
