Michael E. Stogner
Oil Conservation Division
1220 South St. Francis Drive
Santa Fe, New Mexico 87505

Dear Mr. Stogner:

Pursuant to Division Rule 104.F.(2), Mewbourne Oil Company applies for administrative approval of an unorthodox gas well location for the following well:

<u>Well:</u>	Esperanza "19" Fed. Com. Well No. 1
<u>Location:</u>	1938 feet FSL & 393 feet FEL
<u>Well Unit:</u>	S½ of Section 19, Township 21 South, Range 27 East, N.M.P.M., Eddy County, New Mexico

The well will be drilled to test the Morrow formation (Burton Flat-Morrow Gas Pool). Applicant requests unorthodox location approval for all gas zones from the base of the Wolfcamp formation to the base of the Morrow formation. The subject formations are all developed on statewide rules. A Form C-102 for the well is attached as Exhibit A.

The application is based on topographic and geologic reasons. There is a Morrow dry hole on the NE¼SW¼ of Section 19, and applicant desires to move east of that well, and remain in the eastern part of the SE¼. I am obtaining geologic plats to submit to you.

Attached as Exhibit B is a topographic plat. The well unit is on the outskirts of Carlsbad, and there are numerous residences and pipelines, an electric line, and a railroad, which limit well locations. In addition, Eddy County has an ordinance requiring wells to be more than 300 feet from a residence, which further limits well sites, and necessitates the well being moved east of the preferred location 660 feet FEL.

Attached as Exhibit C is a land plat of the area. All of Sections 20 and 29 are operated by OXY USA WTP Limited Partnership, and notice of this application has been given to the offset, as shown by Exhibit D.

Please call me if you need any further information on this matter.

Very truly yours,
