BP America Production Company hereby requests administrative approval for an unorthodox well location for the Arch Rock well no. 1 to be recompleted into the Basin Dakota and Blanco Mesaverde Pools. The subject well was drilled by Conoco Inc. into the Wildcat Pennsylvanian formation in 2000. This proved to be an unsuccessful completion into the Pennsylvanian and the well is shut in. It is our intent to abandon the Pennsylvanian and recomplete to the Dakota and Mesaverde Pools. The spacing unit for this well is the E/2 Section 23 as shown on attached C-102. Also attached is two 9 section plats (one for the Mesaverde and one for the Dakota) with the subject well and surrounding wells identified. Approval for this unorthodox location is required since the well does not conform to the Dakota or Mesaverde location requirements that stipulated that a well be no closer than 660' to the East and West lines of a GPU.

BP America is the operator of record of the 320 acre offsetting the proposed drilling unit, however, the working interest owners are not identical. Please see attached listing for the working interest owners in the E/2 and W/2 of Section 23. Each of these interest owners are being furnished a copy of this application by certified mail return receipt requested.

Your attention to this matter is greatly appreciated. Should you have any questions concerning this application please do not hesitate to call me at 281-366-4491.

Sincerely,

A handwritten signature in cursive script that reads "Mary Corley".
