Describe Cause of Problem and Remedial Action Taken.\*

While making rounds MSO found leak on SEMU Eumont 4" steel trunk line next to SEMU Well #145. MSO shut in wells and isolated leak. He installed an emergency clamp on trunk line. A vacuum truck was called out and 14 BO was recovered.

Describe Area Affected and Cleanup Action Taken.\*

Affected area was 25 feet X 50 feet on pasture. Area will be remediated by digging out contaminated soil and talking to Landfarm. New soil will be brought in its place.

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
