Subject: RE: 1R-388 Termination - Final Closure Request for Plains Monument Barber 10-Inch Sour Site

Dear Mr. Henry:

The New Mexico Oil Conservation Division (NMOCD) has reviewed your request for extension of submittal of the plugging report for remediation plan (1R-388). The OCD hereby approves the request for extension of the submittal of the report until Friday, January 8, 2010.

Also, please be advised that NMOCD approval of this extension for submittal does not relieve the owner/operator of responsibility should operations pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD approval does not relieve the owner/operator of responsibility for compliance with any OCD, federal, state, or local laws and/or regulations.

If you have questions regarding this matter, please contact me at 505-476-3489.

Subject: RE: 1R-388 Termination - Final Closure Request for Plains Monument Barber 10-Inch Sour Site

Ed,

Plains respectfully requests an additional extension of 60 days to complete the plugging and abandonment of the monitor wells at the Monument Barber 10-inch Sour site (1R-388) due to on-going site access issues with the landowner. Plains legal department personnel continue to work towards resolution of these issues and Plains will proceed with the plugging and abandonment of the monitor wells once the landowner grants permission to access the site.

Please contact me if you have any questions or need additional information.

Thank you,
Jason Henry

Dear Mr. Henry:

The New Mexico Oil Conservation Division (NMOCD) has reviewed your request for extension of submittal of the plugging report for remediation plan (1R-388). The OCD hereby approves the request for extension of the submittal of the report until Monday, November 9, 2009.

Also, please be advised that NMOCD approval of this extension for submittal does not relieve the owner/operator of responsibility should operations pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD approval does not relieve the owner/operator of responsibility for compliance with any OCD, federal, state, or local laws and/or regulations.

If you have questions regarding this matter, please contact me at 505-476-3489.

Ed,

As we discussed during our meeting on Sept. 9, 2009, Plains respectfully requests an extension of 60 days to complete the plugging and abandonment of the monitor wells at the Monument Barber 10-inch Sour site (1R-388) due to on-going site access issues with the landowner. Plains legal department personnel continue to work towards resolution of these issues and Plains will proceed with the plugging and abandonment of the monitor wells once the landowner grants permission to access the site.

Please contact me if you have any questions or need additional information.

Ed,

As per our phone conversation on 08/10/2009, Plains respectfully requests an extension of 30 days to complete the plugging and abandonment of the monitor wells at the Monument Barber 10-inch Sour site (1R-388) due to on-going site access issues with the landowner. Plains legal department personnel continue to work towards resolution of these issues and Plains will proceed with the plugging and abandonment of the monitor wells once the landowner grants permission to access the site.

Please contact me if you have any questions or need additional information.

Thank you for your time.

Subject: RE: 1R-388 Termination - Final Closure Request for Plains Monument Barber 10-Inch Sour Site

Ed,

As we discussed on the phone earlier this week, Plains respectfully requests an extension of 90 days to complete the plugging and abandonment of the monitor wells at the Monument Barber 10-inch Sour site (1R-388). Contractors working on behalf of Plains attempted to perform the plugging and abandonment activities during the week of 03/23/2009 but were refused access to the site by the landowner. The issues associated with the landowner refusing site access are being reviewed by Plains legal department personnel. Once these issues are resolved and access permission from the landowner has been secured, Plains will proceed with the plugging and abandonment of the monitor wells.

Please contact me if you have any questions or need additional information.

Thank you,
Jason Henry

RE: "Remediation Summary and Soil Closure Request" and "2008 Annual Monitoring Report" for the Plains Marketing's

**Monument 10 Inch Sour Release Site
Unit Letter M, Section 32, T19S, R36E, Lea County, New Mexico
Remediation Plan (1R388) Termination**

Dear Mr. Henry:

The New Mexico Oil Conservation Division (OCD) has received the closure report for the Monument 10 Inch Sour Release Site, dated January, 2009, and the 2008 Annual Monitoring Report, January, 2009, and has conducted a review of the reports. The reports, submitted for the above-referenced site, indicate that Plains Marketing, L.P. (Plains) has completed the closure requirements in accordance with 19.15.29 NMAC (Part 29, formally, Rule 116). Therefore, the OCD hereby conditionally approves the reports and gives notice that the Remediation Plan (1R-388) is terminated:

Plains must plug the groundwater monitoring wells with a cement grout of 1% to 3% bentonite. Please submit to the OCD a final plugging report within 60 days of receipt of this email.

Please be advised that NMOCD approval of these reports does not relieve the owner/operator of responsibility should operations pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD approval does not relieve the owner/operator of responsibility for compliance with any OCD, federal, state, or local laws and/or regulations.

If you have any questions regarding this matter, please contact me at 505-476-3489.

Subject: Final Closure Request for Plains Monument Barber 10-Inch Sour Site

Ed,

Pursuant to our conversation on January 28, 2009, Plains respectfully requests final closure of the Monument Barber 10-Inch Sour site (1R-0338). Nova Safety and Environmental, on behalf of Plains, has submitted a *2008 Annual Monitoring Report* (January 2009, includes request for groundwater closure) and Basin Environmental Service Technologies, LLC has submitted a report titled *Remediation Summary and Soil Closure Request* (January 2009). At this time, Plains is requesting final closure of this site and NMOCD approval to plug and abandon the on-site monitor wells.

Please contact me if you have any questions or need additional information.

Thank you,
Jason Henry
