If a Watercourse was Impacted, Describe Fully.\*

N/A

Describe Cause of Problem and Remedial Action Taken.\*

Tank unable to equalize due to spare tank being sealed. Spill was contained within battery area. Vac Truck was used to pick up all free standing fluids. Site was remediated to NMOCD requirements determined by Jeff Leking on 3/11/09.

Describe Area Affected and Cleanup Action Taken.\*

Remediated to NMOCD Requirements. Work is complete.

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
