Administrative Order NSL-4239

Dear Mr. Neeley:

Reference is made to your application dated February 26, 1999, which was received by the Division on March 3, 1999, for an off-pattern non-standard Basin-Fruitland coal gas well location for Roddy Production Company, Inc.'s proposed Yockey Well No. 6 to be drilled 1495 feet from the South line and 1060 feet from the East line (Unit I) of Section 20, Township 27 North, Range 11 West, NMPM, San Juan County, New Mexico. The S/2 of Section 20 is to be dedicated to this well in order to form a standard 320-acre lay-down gas spacing and proration unit for the Basin-Fruitland Coal (Gas) Pool.

The application has been duly filed under the provisions of Rule 104.F of the Rules and Regulations of the New Mexico Oil Conservation Division ("Division") and Rule 8 of the "*Special Rules and Regulations for the Basin-Fruitland Coal Gas Pool*," as promulgated by Division Order No. R-8768, as amended.

By the authority granted me under the provisions of these special pool rules and Division Rule 104.F (2), the above-described unorthodox coal gas well location is hereby approved.

Sincerely,
