Division Administrative Order SD-06-01

Dear Mr. Lankford:

Reference is made to your letter dated December 28, 2005 and submitted to New Mexico Oil Conservation Division's office in Santa Fe, New Mexico ("Division") on December 29, 2005 regarding El Paso E & P Company, L. P.'s ("El Paso") plans to establish a high angle/horizontal directional drilling pilot project/producing area (4,480 acres, more or less), pursuant to Division Rule 111.A (9), for the additional development of the coal gas bearing Vermejo formation underlying that portion of the publicly un-surveyed Maxwell Land Grant, projected by private survey conducted by PennzEnergy Company, Colfax County, New Mexico, comprising:

TOWNSHIP 31 NORTH, RANGE 17 EAST

Sections 25, 26, 35, and 36: All

TOWNSHIP 31 NORTH, RANGE 18 EAST

Section 31: All

TOWNSHIP 30 NORTH, RANGE 17 EAST

Sections 1 through 3: All.

Further, reference is hereby made to: (i) your meeting in Santa Fe, New Mexico on November 18, 2005 with Messrs. Roy Johnson, Supervisor Division District IV, and Michael E. Stogner, Staff Engineer with the Division; and (ii) the Division's records in Santa Fe, including the file on Division Administrative Order NSL-4251. For administrative and record keeping purposes this matter has been assigned **Division application reference No. pMES0-601357950.**

By Order No. R-11561, issued in Case No. 12639 on April 9, 2001 and made effective on May 1, 2001, the Division created and defined the Castle Rock Park-Vermejo Gas Pool (**97046**) for the production of gas from the Vermejo formation; the horizontal limits for this pool, as currently designated, comprises the following described lands in Colfax County, New Mexico, as projected into the (publicly un-surveyed) Maxwell Land Grant by private survey conducted by PennzEnergy Company:

Currently, gas production from the Castle Rock Park-Vermejo Gas Pool and the Vermejo formation underlying the proposed pilot project/producing is "unprorated" and not subject to Part H of the Division's statewide rules entitled "*Gas Proration and Allocation*" (Rules 601 through 605); however, such gas production is subject to Division Rules 104.C (3) and 104.D (3) (see Division Order No. R-11231, issued by the New Mexico Oil Conservation Commission in Case No. 12119 on August 12, 1999, and Division Memorandum issued by Director Lori Wrotenbery on October 25, 1999), which provides for: (i) 160-acre gas spacing, or drilling, units; (ii) requires that wells be located no closer than 660 feet to any outer boundary of such tract nor closer than 10 feet to any quarter-quarter section or subdivision inner boundary; and (iii) limits the number of wells for each 160-acre drilling tract to only one. Further, Division Administrative Order NSL-4251, dated April 5, 1999, allowed the Supervisor of the Division's District office in Santa Fe, New Mexico, to grant exceptions to the setback requirements under most conditions.

El Paso as operator of the proposed lateral horizontal wellbore pilot project/producing area, as further described above, is granted exception to Division Rule 104.D (3) and is hereby authorized to develop the spacing units within this area with multiple wells.

Under the authority granted me under the applicable provisions of Division Rules 104 and 111 and Division Administrative Order NSL-4251, El Paso shall be permitted to proceed with its intended development of the Vermejo formation within the above-described pilot project/producing area with the drilling or recompletion of the thirteen aforementioned wells (Vermejo Park Ranch "D" Wells No. 98, 300, 301, 302, 303, 304, 305, 306, 307, 308, 309, 310, and 311); provided however, the path of these wellbores within the Vermejo formation shall be confined to a 10 foot buffer area surrounding the entire 4,480-acre, more or less, pilot project/producing area [see Division Rule 111.A (7)].

Furthermore, development within the pilot project/producing area is not necessarily confined to these thirteen wells; the operator is hereby authorized to recomplete any existing wellbore or drill additional wells within this 4,480-acre, more or less, pilot project/producing area it deems necessary.

Jurisdiction of this cause is retained for the entry of such orders as the Division may deem necessary.

Sincerely,
