Was a Watercourse Reached?	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No	If YES, Volume Impacting the Watercourse.			

If a Watercourse was Impacted, Describe Fully.*

WATER @ 300'

Describe Cause of Problem and Remedial Action Taken.*

A plastic flow line ruptured releasing produced water and oil. Vacuum trucks were used to recover free fluid. A backhoe was used to scrape wet soil to aid in the cleanup.

Describe Area Affected and Cleanup Action Taken.*

8 BBLS of fluid was recovered. Immediate remedial operations were commenced by soil removal. Soil removal will be done and remedial actions and test results will be furnished with the final C-141.

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
