Dear Mr. Sherrell:

Reference is made to the following:

2 4112 (a) your application (administrative application reference No. pKAA09-12047940) submitted to the New Mexico Oil Conservation Division (the Division) in Santa Fe, New Mexico on April 30, 2009, and

(b) the Division's records pertinent to this request.

Mack Energy Corporation [OGRID 013837] (Mack) has requested to drill the abovereferenced well as a horizontal well in the Wolfcamp formation, at a location that will be unorthodox under Division Rule 16.14.B(2). The proposed surface location, point of penetration and terminus of the well are as follows:

Surface Location:	2310 feet from the North line and 330 feet from the West line (Unit E) of Section 15, Township 16S, Range 28E, NMPM Eddy County, New Mexico
Point of Penetration:	2275 feet from the North line and 802 feet from the West line (Unit E) of said section
Terminus	2150 feet from the North line and 1527 feet from the East line (Unit G) of said section

May 20, 2009 Page 2

The SW/4 NE/4 and S/2 NW/4 of Section 15 will be dedicated to the proposed well to forma project area comprising three adjacent, standard 40-acre spacing units in the undesignated Crow Flats Wolfcamp Pool (97102). This pool is governed by statewide Rule 15.9. A, which provides for 40-acre units, with wells located at least 330 feet from a unit outer boundary. This location is unorthodox because a portion of the producing interval will be less than 330 feet from the eastern boundary of the project area, and therefore outside the producing area.
