Flow line ruptured due to freezing temperature. Surface fluids picked up with Vac truck. Remediate soil to NMOCD requirements.

Describe Area Affected and Cleanup Action Taken.*

Excavated impacted soil and disposed of soil at NMOCD approved disposal facility according to the remediation plan approved by Geoff Leking and Larry Johnson of the NMOCD.

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
