Attn: Mr. Mark Young

**RE: *Injection Pressure Increase,  
Hahn Federal Well No. 5  
API No. 30-005-20532  
Chaves County, New Mexico***

Dear Mr. Young:

Reference is made to your request dated May 10, 2001 to increase the surface injection pressure on the above referenced well. This request is based on a step rate test conducted on the well on March 2, 2001. The results of the test have been reviewed by my staff and we feel an increase in injection pressure on this well is justified at this time.

You are therefore authorized to increase the surface injection pressure on the following well:

<i>Well and Location</i>	<i>Maximum Surface Injection Pressure</i>
Hahn Federal Well No. 5	1862 PSIG
Located in Unit K of Section 27, Township 7 South, Range 31 East, Chaves County, New Mexico.	

The Division Director may rescind this injection pressure increase if it becomes apparent that the injected water is not being confined to the injection zone or is endangering any fresh water aquifers.
