Subject: Parkway 13: DHC-4194 - Allocation Check

Good Afternoon Will,

I just received the approval letter on the DHC-4194 and thought I should bring something to your attention. If you look at the allocation of production the percentages are not totaling 100% for the gas and oil percentages. I think the Morrow zone numbers were flopped, they currently read Gas 60% and Oil 80%, but should be Gas 80% and Oil 60%. I looked back at my sundry and the C-107A and I did have these percentages correct, I'm sure this is a typo.

Should I look for a revised letter to come from the Santa Fe office or can you scan one back to me or should I just wait for the revised letter to show up on the NMOCD website? I know you are swamped, so let me know! ☺
