Re: Proposed NSP-177

Gentlemen:

Reference is made to your letter dated July 15, 1955 for administrative NSP on your State 1-35, Well No. 1 in the Eumont Gas Pool.

It is noted that you failed to inform Tide Water Oil Company, who has a lease in the NW/4 NW/4 and Hudson & Hudson (Fort Worth, Texas), who has a lease in the SE/4 SE/4, both being in Section 35, Township 19 South, Range 37 East. In conformance with paragraph 5 (a) of Rule 5 (b) of Order R-520, please notify the two above-mentioned leaseholders. We will assume that you will notify the two other operators and we will therefore not hold up your application, but will approve same on August 20, 1955 unless we have received objection to the application. However, if waivers are received from all ten operators, then the application may be approved before the expiration of the 30-day waiting period.

Attached is a memorandum for your future guidance on filing similar administrative applications. Your present application was not notorized, however we will not hold up your application.

Very truly yours,

W. B. MACEY,
Secretary-Director

Attention: Mr. W. D. Macey

Gentlemen:

On July 15, 1955, Standard Oil Company of Texas submitted an application for administrative approval of a non-standard gas proration unit to be formed in the Eumont Gas Pool under Rule 5(b) of Order R-520 for its State 1-35 No. 1 well. We were advised by letter dated July 22, 1955, from the New Mexico Oil Conservation Commission that the proposed non-standard gas proration unit would be approved by administrative order on August 20, 1955, unless objection to the application was received.

In compliance with paragraphs 5(a) and 5(b) of Rule 5(b) of Order R-520 attached hereto are waivers from ten of the eleven operators notified of our application. Gulf Oil Corporation has not replied to our request for waiver regarding formation of the subject non-standard unit.
